SUGGEST FLEXIBLE TERMS

Relief Offered by France is
Slight—America Won't
Compromise

Washington—(AP)—President Coolidge regards the tariff dispute between the United States and France as confined strictly to the question of French discrimination against American goods.

Washington—France and the United States are not much nearer a solution of the tariff dispute, even though the exchange of notes shows a conciliatory disposition on both sides and a desire to find a way out.

The crux of the situation is that the French have asked for into effect discriminatory rates and this suggestion does not sit well with American officials. The latest French proposal that the United States examine into the possibility of using a flexible tariff provision will be accepted with reservations, principally among which is the question that the investigation is in progress there should be no modus vivendi or temporary arrangement, giving the United States the same favored nation treatment that Germany enjoys. The French are unwilling to do this but will gladly give the United States a reduction of 50 per cent on the most important duties at 400 per cent, so that subtracting 400 per cent would mean about a 350 per cent duty. This doesn't give the United States much relief and there is no telling what the American government will say in response. The chances are that the United States will not go to the main principle involved, which is that America should have as good an arrangement as France gives to any other country. The United States, on its part, does not levy discriminatory duties against a particular country unless some special reason exists which involves a reprisal.

PRINCIPLE INVOLVED

Although it is estimated that only about one twenty-sixth of the total amount of American goods amounting to \$200,000,000 is involved in the dispute the United States government is well aware that the question reaches beyond mere quantities and involves a broad principle which will set a precedent for other European nations if the United States shows the slightest inclination to yield.

The French have asked also that the quarantines applied by the department of agriculture against certain French products be modified, which is also another point for bargaining. The insistence of the French that the flexible tariff provisions give the United States an opportunity to reduce the tariff on an important tariff law is itself flexible. Costs of production must first be determined and this kind of inquiry takes a long time. In very few instances has the tariff commission found the cost of production of such a nature that it could be applied. The investigation, therefore, is merely an instrument of delay for both sides.

Congress will reconvene and probably take up the whole question long before the tariff commission could make a report. In the end it will be found that the protective principle will be maintained and favored nation treatment insisted upon or else the retaliatory will be forced on the executive by congress. If any reduction in tariff is undertaken it will be for all countries alike.

\$120,000 DAMAGE DONE BY FIRE IN OSHKOSH PLANT

Oshkosh, Wis.—(AP)—Fire of unknown origin late Monday afternoon swept through a large warehouse owned by the Oshkosh Manufacturing Co. and caused a loss estimated at \$120,000. Fanned by a brisk southeast wind, embers were shot high into the air and were carried for blocks, endangering a considerable portion of the residential section, and blocks of residences. A heavy down-pour that started soon after the fire was discovered aided the firemen in containing the flames to the warehouse. The loss to the building was placed at \$20,000 and the contents at \$100,000, most of which is insured.

RAIL TRACK WRECKED AS MINE COLLAPSES

Dubuque, Ind.—(AP)—The Mondak No. 1 mine at DuBuque, Ind., collapsed Tuesday morning, wrecking hundreds of yards of track of the Canadian Pacific railway's South line and causing the railway station. The station again escaped.

GERMAN AIRPLANE HOPS OFF ON FLIGHT TO U. S.

CAL PLEDGES SUPPORT FOR FLOOD RELIEF

President Avails Suggestions as to Necessary Course of Action

Washington—(AP)—Devoting his speech Monday night before the annual meeting of the American Red Cross almost exclusively to the recent Mississippi valley flood, President Coolidge declared that "we propose to solve the problem of flood control so that such a situation may never have to be met. 'In the solution,' he added, 'we shall advance our system of inland waterways.'"

This was the extent to which the president discussed future governmental policy with regard to the flood problem. He made no direct reference to probable congressional action, and avoided specific predictions as to what should be done.

Out of the affliction and suffering caused by the Mississippi flood, Mr. Coolidge believes, new lessons of sanitation and health have been learned so that the catastrophe may prove a blessing in disguise.

The hand of the flooded area, he added, has been enriched by deposits of river mud, the farmers have been supplied with a better quality of seed and their buildings have been replaced with new structures better than the old. "These advantages will remain," he concluded.

LAUDS FLOOD WORKERS

Complimenting those most actively concerned with relief for the flood sufferers, the president mentioned specifically the services of Secretary Hoover, James L. Felsor, acting chairman of the Red Cross, and Major General Jadin, chief of army engineers.

"The story is one of the fine characters in American history," Mr. Coolidge said, "a record of generous response to a call for funds, of the high devotion of duty of those engaged in saving life, and relieving distress, and of endurance and courage shown by the people of the stricken area. The north and the south have been brought closer together in the bonds of sympathy and understanding. The heart of an empire nation has been quickened."

Recalling that the flood enlisted the assistance of more government departments than any previous disaster the president declared that the relief work was so well designed and carried out that by July 12 headquarters could once more be removed to Washington.

"Much glory has been added to our Red Cross emblem. More and more it is coming to be recognized universally as the symbol of love, sympathy, and charity for all those in suffering and distress. Its benign influence reaches out to the world, dispelling envy and malice, so that we think less of self and more of others, bringing more of peace on earth and good will toward men."

WAR ON WAR CAMPAIGN IS PLANNED BY CHURCH

Fond du Lac—(AP)—That the war system has a tenacious hold upon our country, as well as upon the other nations of the world, and that the church has a tremendous problem if and when it seeks to break that hold, was the sentiment expressed by the principal speakers at the Monday session of the Wisconsin Congregational conference, devoted to a discussion of the "Peace offensive." While expressing their beliefs in different words, pastors and laymen from all over the state gave voice to similar sentiments when the subject was thrown open for discussion from the floor, with Dr. Robbins W. Barstow, Madison, leading the discussion.

Closing an address on the subject, Dr. Noble S. Elmer, of Duluth, said, "If in the decade between 1901 and 1914 the churches of the Christian world had said, 'thou shalt not,' there would have been no general European war. The church can do it, even if she confines herself to her oldest policy, just personal work with the individual."

ANOTHER ALABAMA MAN ABDUCTED AND FLOODED

Birmingham, Ala.—(AP)—Robert Collins reported to police Tuesday that he was taken to the outskirts of the city by two unknown men Sunday night and flooded. After being beaten with sticks and limbs of trees, Collins said, he was taken part way back to downtown Birmingham, out of the automobile and told to make his way home. He said he could give no reason for the whipping, but that later he received a telephone call advising him to leave town at once or the flooding would be repeated. Collins, who is 31, is not married.

Meanwhile at Montgomery Attorney General Charles C. McCall has asked Governor John Graves to call a special session of the Legislature, grand jury to investigate the flooding of more than twenty persons there within the last two years. He said he had sufficient evidence to indict 30 persons there.

KING FERDINAND'S WEALTH MUCH LESS THAN 1ST REPORTS

Bucharest, Rumania—(AP)—King Ferdinand of Rumania, left a much smaller estate, it is learned than was at first anticipated. Instead of \$2,000,000 in cash and securities he left only half that sum. In real estate and personal property, also, the total is considerably smaller than was expected. The late king's affairs are involved in legal entanglements.

It was found that Ferdinand had sumptuous houses in Switzerland, Germany and France. They are not mentioned in the will and it is probable they will be sold and the proceeds allotted to Queen Marie.

MAKE RADIO PUBLIC SERVICE, CAL ASKS

Develop Invention So That It Will Be of Greatest Good to World, He Pleads

Washington—(AP)—Radio, having become a great influence in the world, needs to be raised into "realm of beneficent public service" so that it will promote friendship and understanding, rather than ill-will and dissension among nations, President Coolidge declared Tuesday in an address opening the International Radio Telegraph conference.

Like every invention which increases the power of man, he said, radio may be used for good or for evil and he commended to the conference the setting aside, so far as possible, of sectional needs so that a broad, cooperative policy for the good of all nations using this method of communication may be adopted.

"The world will not be benefited by this increase in the scope of its power," Mr. Coolidge told the delegates, "unless there is corresponding increase in moral development. The radio is a tool, and it is up to this great industry in the realm of beneficent public service."

STATE LIBRARIANS HOLD MEETING AT GREEN BAY

Green Bay—(AP)—Librarians from all parts of Wisconsin were arriving in Green Bay Tuesday for the thirty-sixth annual convention of the Wisconsin Library association, which will open Tuesday evening in the Kellogg Public library assembly room. It was expected that approximately 200 delegates would attend. The entire day was given over to registration of the visitors.

The official opening of the meeting will be sounded by Mayor James H. McGilgan, Green Bay, who will welcome members and Miss Liela Jansen, president of the association, will respond.

Upton Close, noted writer and traveler, will speak on his visits to China and Japan. He will be followed by Mrs. Joseph Mack on a disorderly conduct charge, when he found the couple parked in their automobile. A verdict for the defendant was returned in Mack's \$13,000 damage suit against the policeman. Rolfs was cited over the verdict.

Max Mack, in a similar suit last week, was awarded a verdict of \$5,675. Mack based his claim on false arrest, malicious prosecution and assault and battery.

RACINE DRUM CORPS IS CHEERED IN HOME TOWN

Racine—(AP)—The Racine Drum and Bugle corps, which failed in its efforts to win back first prize trophy in American legion competition at Paris, France, was awarded an ovation, upon its return here Monday evening, of which they could have justly felt proud had they succeeded. Several thousand persons were massed along the Northwestern station and from State and Main streets, through which they paraded under escort of the Racine Drum and Bugle corps, which won first honors at Fort Worth, Texas, this year, were lined with spectators.

620 LEGIONAIRES BACK FROM PARIS CONVENTION

Quebec—(AP)—About 620 members of the American Legion returned from the Paris convention Monday morning on the Canadian Pacific train. Montreal from Antwerp. The legionnaires came from Wisconsin, Michigan, Montana, Colorado and New York.

AZORES FIRST STOP ON TRIP ACROSS OCEAN

Tri-motored Plane Flies to Newfoundland or Bermuda and Then to U. S.

Norderney, Germany—(AP)—A new German attempt to span the Atlantic ocean by air began Tuesday with the departure of the D-1230, a three-motored hydro-airplane, for the United States by way of Azores.

The plane, in command of Frederick Loose, one of the crew of the Junkers plane Bremen during the unsuccessful trans-Atlantic attempt in August, took off at 4:46 in the afternoon after a start of about 150 yards and headed in a westerly direction with the Azores, as its destination.

The greatest secrecy surrounded the final preparations for the hop-off and it was impossible to learn whether Lily Dillenz, a Viennese actress, was on board, as had been reported.

The route was planned to take the plane by way of Vigo, Spain, to the Azores. From the Azores the plane will go to either Newfoundland or Bermuda and thence to the United States.

Only the members of the crew and the backers of the enterprise were permitted in the airfield and on the pier from which the pilots took boats for the D1230 anchorage. The plane, although bound for the Azores, may land at Vigo, Spain, or Lisbon, and then later proceed to Harbor Grace, N. F.

LEVINE MEETS DUCE

Rome—(AP)—Charles A. Levine, who was received in audience by Pope Pius Monday, had a long audience with Premier Mussolini Tuesday, aviation being the subject most discussed. The Italian premier asked many questions about the trans-Atlantic flight of the Columbia, which Levine took with Clarence C. Chanterlin and a group of inquirers concerning the condition of the plane and its motor.

Speaking of Levine's plan to build a huge plane to carry 50 passengers and designed for trans-Atlantic passenger service, Premier Mussolini asked Levine why he did not come to Italy to build the plane.

When the premier was told of Levine's plan to drop a watch by a small parachute at the premier's country home as a gift to the premier's new son, Roma Romano, Mussolini took a sheet of paper, drew a map of the house and its surroundings and then telephoned to his daughter at Forlì instructing her to spread sheets on the roof of the villa and over the grounds so that the place might be identified from the air.

FLY TO BALKANS

Levine and his pilot, Captain Walter Hinchcliffe planned to hop off from Rome Tuesday afternoon, the Balkan premier flying over Mussolini's country home.

Levine's interview with Premier Mussolini lasted half an hour, the premier at its end inscribing a photograph as follows:

"To the aviator, Levine, intrepid Atlantic flier, with sincere admiration and cordiality." The photograph was then signed "Mussolini."

Levine said later that he was much impressed with the Italian premier.

FIFTY LEGIONAIRES FAIL TO SEE BELGIUM'S KING

Brussels—(AP)—Fifty legionnaires and members of the legion failed to see King Albert and Queen Elisabeth at the palace reception Monday.

They gathered and lined up outside the palace and finally drafted a written demand that they be admitted with the official "Good-will" delegation.

Headed by the returning commander, Howard P. Savage, by that time the audience was over.

There left in the cold, it was explained, were without cards, presumably because their names were not on the embassy list, as they are traveling apart from the official legion party.

1,000 Miners Threaten Sheriff's Men In Ohio

St. Clairsville, O.—(AP)—Belmont on Monday night, 11 miners threatened the sheriff's men in a dispute over the general suspension of operations last April 1, has become the center of new disturbances. Sheriff C. C. Hardesty, reported the situation with in hand after the latest outbreak.

Disorders broke out at three places Monday night. At the Wells mine, Sheriff Hardesty and his deputies were threatened with violence. At the Lehigh mine, Sheriff Hardesty and his deputies were threatened with violence. At the Lehigh mine, Sheriff Hardesty and his deputies were threatened with violence.

Post-Crescent Readers Invited To World Series

Following its usual custom of giving its readers the best possible service on all occasions, the Appleton Post-Crescent again has arranged for presenting a play-by-play report of the World baseball series on its Playograph erected on the west wall of the Y. M. C. A. building.

Those who have witnessed the reproduction of baseball games on this mechanical marvel need no introduction to the fidelity with which every play as it is made on the board field is reflected for the benefit of the fans in Appleton. Those who have not seen the board in operation will marvel at the ingenuity of the contrivance.

Every play as it is made on the diamond is reproduced in all its details on the board only a few seconds after it is made on the field. Every ball thrown by the pitcher, every swing made by the batter and every play made by the fielders is reflected in all its details. Wateline the game on the playograph is next to sitting in the grandstand of the world series parks.

Games in New York and Pittsburgh will start at 1:30 Eastern Standard time except on Sunday when they begin at 2 o'clock. Because of the hour difference in time between Appleton and the east the games here will start at 12:30 except on Sunday when they will start at 2 o'clock.

Accommodations for thousands of persons will be provided on the Y. M. C. A. tennis courts at the corner of S. Appleton and W. Lawrence sts. The games begin tomorrow afternoon and every reader of the Post-Crescent is invited to see them.

WALTON LEAGUE MAY ACT ON GAME CHIEF

Directors of Milwaukee Chapter Ready to Bring Suit on Nagler Choice

Milwaukee—(AP)—Directors of the Izaak Walton league at a meeting Wednesday night, it is reported by the Journal, will back any legal action that be brought by the Milwaukee chapter to test the qualifications of Louis B. Nagler to serve as conservation director of the Wisconsin State commission in Madison.

The Milwaukee chapter, it is understood, says the story, has considered starting injunctive proceedings in the circuit court of Dane co. because the law says that the conservation director "shall be a person having executive ability and experience special training and skill in conservation work."

To conservationists it is not clear how Mr. Nagler would qualify under the clause "special training and skill in conservation work."

MAY CHANGE PLANS

Whether the speech of William Maunthe, Fond du Lac chairman of the newly created conservation commission before the Walton league Tuesday night would change plans to bring the injunction was to be determined Wednesday.

Mr. Maunthe made no direct mention of Mr. Nagler's unanimous appointment to the Wisconsin State commission, but the tone of his speech was defense of the commission in its choice of a conservation director.

Mr. Maunthe took the position that it is very difficult to keep the commission out of politics, saying "politics is, by necessity, to deeply entrenched in the state conservation department that it is folly to expect to take conservation out of politics."

He told the Walton league that it had succeeded in having the new conservation law enacted "only by reason of its political strength."

PAROLE VIOLATOR IS NABBED IN CHICAGO

Chicago—(AP)—Louis Boyce, who the police say is wanted for breaking his parole from the Wisconsin State penitentiary, was nabbed Monday by Chicago police. The police also charged Boyce with forgery of \$5,000 in checks here.

PAROLED YEAR AGO

Green Bay—(AP)—Louis Boyce, held by Chicago police for the forgery of \$5,000 in checks at that city, was sentenced in Milwaukee in 1926 to a term in the state reformatory of three years on a like charge. He was paroled one year ago after serving two years. Following his parole he went to work in Milwaukee and left after being released about a month. Boyce is also known by his alias, James Reat. Authorities here would not say as to what disposition would be made of the case.

SON IS MENTALLY UN SOUND SO MOTHER KILLS HIM AND SELF

New York—(AP)—A mother who ridged her 16-year-old backward son of his troubled life Monday Tuesday from the effects of poison which she shared with him. Mrs. Helen Iwanska of Brooklyn, who had first-born son Joseph, the most of her three children but because he was mentally defective no one else seemed to care for him and that broke her heart.

Added to that sorrow, her second child, Sigmund, 14 was made deaf and dumb seven years ago when struck by an automobile. For years, Mrs. Iwanska had shielded Joseph from the pranks of his playmates. Day after day his classmates, above whom he towered head and shoulders would chase him home from school to the arms of his mother.

While also with her unfortunate son, she mixed three poisonous liquids in a glass and coaxed him to drink it. She swallowed the rest herself.

PENNOCK INJURES LEG; MAY STAY IN SERIES

Pittsburg—(AP)—Herb Pennock, star Yankee southpaw, suffered a ruptured blood vessel in his left leg Tuesday when he was struck by a line drive driven by pitcher at Forbes field. The ball hit him just above the knee.

Her husband, Dr. A. William Lillendahl, near here Sept. 12, Tuesday refused to go over the route she and her husband took the day he was slain.

Chief of County Detective Clarence J. Harrold and state police had made careful and complete examinations of the scene and found no evidence to connect the widow with the murder.

NATIONAL TEA CO. BUYS PIGGY WIGGLY STORES

Milwaukee—(AP)—F. H. Massemann, vice president of the National Tea Co. of Chicago, and Walter Mathieson, president of the National Tea Co. of Milwaukee, have purchased the Piggy Wiggly Stores, Inc., of Wisconsin, it was announced Monday by E. C. Hampe, manager of the Milwaukee stores.

The two chain store organizations will be operated as at present through out the state and no change in the personnel of either organization is contemplated.

The 49 Piggy Wiggly stores in Milwaukee will be immediately transferred to the new organization, the National Tea Co., which operates 57 stores in Milwaukee.

At present the Piggy Wiggly organization operates stores in three Wisconsin cities, Beloit, Racine and Milwaukee and plans to expand the organization to other cities as under way.

WIDOW REFUSES TO GO OVER ROUTE OF MURDER

Hammonville, N. J.—(AP)—Mrs. Margaret Lillendahl, held as a material witness in connection with killing her husband, Dr. A. William Lillendahl, near here Sept. 12, Tuesday refused to go over the route she and her husband took the day he was slain.

Chief of County Detective Clarence J. Harrold and state police had made careful and complete examinations of the scene and found no evidence to connect the widow with the murder.

ONEIDA INDIAN CASE OPENED IN MONTREAL

Iroquois Crowd Courtroom as Trio Is Charged With Committing Fraud

Montreal—(AP)—Except for the decorum of the court of King's bench, the great room resembled a tribal powwow Monday when the trial of the so-called "Indian case" was started. Orin J. Kellogg, former lawyer of Wisconsin, his wife, Laura Cornelius Kellogg and her brother Chief W. K. Cornelius, are charged with conspiracy to obtain \$15,000 by false pretenses from members of the Six Nations Indians of Quebec and Ontario. The spectators' seats were almost entirely taken by Iroquois Indians from the Caginawaga reservation.

Behind the charge of conspiracy there is an ambitious claim to recover millions of acres of land covering the whole western part of the state of New York—the land which the Kellogg claim is "by right of conquest from other tribes, the rightful property of the six nations."

In addition to this formidable claim, the money collected from Canadian Indians was, the Kelloggs have said at pow wows, to have been used to rehabilitate the red men to independence and "a sense of nationhood."

CHARGE OF FALSE PRETENSES

The Royal Canadian Mounted police accuse the Kelloggs and Cornelius of obtaining subscriptions from Indians on Canadian reservations by false pretenses. The scheme of rehabilitation and the demand for such a huge territory is considered preposterous by the matter-of-fact police and they take the stand that the amounts subscribed by hundreds of Indians were collected by false representations.

The trial promises to be the longest held here in many years. In addition, a mixed jury has been chosen. This means that all the evidence must be translated from English into French.

While also with her unfortunate son, she mixed three poisonous liquids in a glass and coaxed him to drink it. She swallowed the rest herself.

BOY MURDERER IS GIVEN LIFE TERM

14-year-old Slayer Accepts Sentence Without Sign of Emotion

Cedar Rapids, Ia.—(AP)—Three weeks ago Tuesday Lyle Messner, 14-year-old junior high school youth, took the life of Katherine Forrest, 6, by suffocating her after committing a criminal attack. Tuesday he began serving a life sentence at hard labor at Fort Madison State prison in expiration of the crime.

No trace of emotion was displayed by the boy late Monday when District Judge John T. Moffitt, before whom he had changed his plea from not guilty to guilty, condemned him to life imprisonment at the completion of a hearing to determine punishment.

Young Messner confessed that on the night of Sept. 12, he took the little girl into the basement of a vacant house next door to his home here, attacked her and then held her hand over her face until he heard her "squeak."

He then thrust the body in a niche in the cellar wall and fled, not knowing he had killed her. Her body was found the next morning and suspicion at once pointed to Messner. Defense counsel agreed to abandon a plan to seek an insanity verdict and accept life term for Lyle when the state dropped its insistence on the death penalty.

COULDN'T TAKE JOKE SO HE KILLS TWO JOKESTERS

Chicago—(AP)—A shoemaker who "couldn't take a joke" is being held, while police investigate the fatal slaying of two jokesters in his little repair shop Monday night.

William Hinz, 37, and Charles Szwedka, 27, are dead. Telling laughter nearly to "watch the fun," the two entered the shoe shop of Joseph Zelenka, posing as officers came to arrest him on charges of manufacturing alcohol. They asked for "lunch money."

The shoemaker told police. They outside the shop awaiting the only one of the "joke" saw a sudden scuffle and then Hinz and Szwedka entered from the shop and fell on a table knife wounds. Zelenka was arrested.

RESERVE BOARD HEAD NAMED BY COOLIDGE

Washington—(AP)—Roy A. Young of Minneapolis, was designated Tuesday by President Coolidge as head of the Federal Reserve board of directors.

Young, 44, is an attorney and has been in the Federal Reserve board since 1925. He is a member of the Federal Reserve board of directors and has been in the Federal Reserve board since 1925.

Oregon Pledges Aid in Crushing Mexican Revolutionists in Field

BULLETIN

Mexico City—(AP)—General Francisco Serrano one of the alleged leaders of the revolt against the Mexican government, together with 13 of his followers has been captured, summarily court-martialed and executed. General Serrano and those executed with him were captured by troops loyal to the government in the state of Morelos.

GENERAL EXECUTION

El Paso, Texas—(AP)—Dispatches received by El Continental, Spanish newspaper of this city, state that a dawn Tuesday all of the rebellious faction that fought with federal troops at Torreon were executed. The federal troops at Torreon far outnumbered the insurrectionists, the report said, and practically all of the uprising troops were killed.

The dispatch stated that the house of deputies will be called into extraordinary session at Mexico City Tuesday for the purpose of ousting all members of the anti-revolutionary party which has supported the presidential candidacies of Generals Serrano and Gomez.

The same report also stated that a train on the Inter-oceanic railway, bound for Mexico City, was attacked at Texaco and passengers and express car robbed.

19 REBELS KILLED

Nogales, Ariz.—(AP)—Nineteen rebels were killed and twenty wounded in two hours of fierce fighting in Jalisco, semi-official dispatches received here Tuesday reported.

The battle resulted in the Federal Generals Leal and Garza beating back rebel forces under Victoriano Ramirez, in the Canaleon mountains of the northwestern part of the state of Jalisco, the dispatch said. No federal casualties were reported and the time of the skirmish was not given in the dispatches.

ONLY 800 DESERTERS

Organized as a nation-wide military uprising, the Revolutionary movement in Mexico, allegedly inspired by Generals Serrano and Gomez, is being crushed by President Calles to have failed. Advances Tuesday indicated that the 800 soldiers of the Mexico City garrison, who marched out of the capital Sunday at midnight comprised the sole body of insurrectionists in the field.

Thousands of loyal federal troops with airplanes were pursuing them, whose aspirations for president, General Obregon, former president, whose aspirations for president are opposed by Serrano and Gomez, has pledged his aid in the military campaign against them.

Advances to the presidential palace were that two regiments also revolted at Vera Cruz, but direct dispatches from Mexico City said quiet reigned in that military zone.

All sources reported great excitement in the capital, and dispatches over the border said martial law was in effect. Uprisings in the state of Oaxaca and Puebla were reported, but there was nothing to connect with the military revolt.

INDIANS JOIN MOVE

Tucson, Ariz.—(AP)—The Arizona Daily Star says it has learned that an extensive movement of armed Indian General Obregon, former president, whose aspirations for president are opposed by Serrano and Gomez, has pledged his aid in the military campaign against them.

MENTION THOMPSON AS LIKELY CHOICE OF U. S. DEMOCRATS

Colorado Man Noted as
"Trust Buster" and Enemy
of Price Fixing

BY RODNEY DUTCHER

Washington—If the Democrats actually are going to nominate a dry progressive, as many of them have threatened to do, the last eight or ten years, Huston Thompson of Colorado stands as good a chance as any one.

Thompson is quite dry and he is very, very progressive.

One hears that he may have the Colorado delegation at the convention. The trouble is that, although they may nominate an accomplished strategist, the Democrats are not likely to nominate a dry progressive.

The anti-Smith leaders will have to have someone to rally around when the convention gets under way, but whoever that may be can promptly decide that he is definitely sunk. The dry will be looking for temporary parking space and not for a bandwagon. The eclipse of McAdoo left little hope that a man of the McAdoo stamp could be nominated.

SMITH OR REED

The nominee now seems likely to be Smith or Reed. But if not, the honor can hardly go to a man like Glass, Owen, Meredith or Thompson, although any of these men may be chosen for the job of holding the anti-Smith strength together. Under the circumstances, one of these men would do about as well as another. All of them are high-grade.

But there will be a great many good Democrats who won't believe all that and because they hold that this is the time to nominate a dry progressive you may hear a great deal more from Thompson at the convention.

Nearly everyone has heard of Thompson as a chairman and member of the Federal Trade Commission, but he is not a popular, widely known figure. Thompson might remedy that almost single-handed if he were nominated, however, for his Republican opponent would most certainly know that he had been in a fight.

First and foremost Thompson is a "trust-buster." In these days when "big business" is riding and is yet more popular than ever, the fact might not be much of an asset for Thompson, but the man is loaded with ammunition and he probably knows more about monopolies and the mysterious wars of the trusts than any other man in his party.

FRIEND OF WILSON

To the extent the Democrats are getting excited over "invisible government" and "Wall Street control" of the administration, Thompson benefits. It must also be remembered that he carries a strong appeal to the so-called Wilson faction of the party. On March 26, 1923, Woodrow Wilson wired Governor Sweet of Colorado:

"I trust you will not think it an unwarranted liberty if I express the hope that you will select my friend Huston Thompson for the vacant seat in the Senate."

Sweet didn't, but it was the only time Wilson recommended a man for office after he left the presidency. Thompson was the only man who had three appointments attorney general for five years and served eight years on the Federal Trade Commission, of which he was twice chairman. As assistant attorney general, he argued 70 cases before the supreme court and cleared up a docket of 22,309 cases before the court of claims in five years.

During that court up to date for the first time.

EXPOSED MONOPOLY

On the Federal Trade Commission, Thompson led the fight which abolished the Pittsburgh plus system in the steel industry and its oppressive effects on the west and the south. It was Thompson who exposed the aluminum trust monopoly of which Senator Tom Walsh made such a red-hot issue. He fought successfully business methods in North Dakota and Minnesota which were destroying the farm co-operative associations.

During Harding's administration, Thompson was asked by some administration leaders to suppress the complaint charging unfair practices leading to monopoly by the Famous Players-Lasky Corporation. He promptly moved to issue the complaint, which resulted after a long trial in

CITY SHOWS GAIN IN CONSTRUCTION WORK

Fewer building permits were issued during September than were issued September, 1926, but the total estimated cost of construction was \$15,625 greater than last year.

A total of 59 permits for work estimated to cost \$113,435 were issued last month. Last year, 75 permits were issued during September for work estimated to cost \$97,810.

The classification last month was as follows: 12 residences, \$31,618; 5 residences and garages, \$32,000; 24 garages, \$7,495; 18 miscellaneous, \$42,122.

The classification one year ago was: 10 residences, \$42,700; 5 residences and garages, \$19,500; 30 garages, \$8,800; 11 miscellaneous, \$27,310.

COMPLETE 1927-28 STUDENT DIRECTORY

The Lawrence college student directory for 1927-28 has been completed by the chamber of commerce and any merchant or chamber member who desires a directory can call "it" at the office. The directories are not being mailed out. They contain the names, addresses and telephone numbers of students and faculty members. Three hundred copies have been made so that there are enough for every member of the chamber who desires one.

an order against the company. When the Brookhart committee was investigating Attorney General Daugherty, Thompson testified for days and exposed what the department of justice had done or had not done with more than 50 anti-trust cases referred to Daugherty by the commission.

FOUGHT PRICE CONTROL

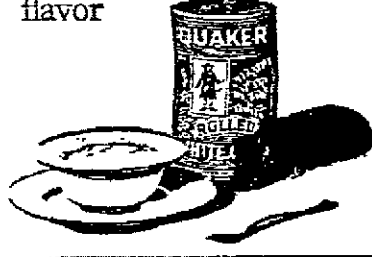

Thompson has fought constantly against price-fixing and price control by interests dealing with the necessities of life. He asserts that the only way to help the farmer is by "making his purchasing dollar equal in value to his selling dollar."

"This can be done," he says, "first, by restraining monopoly—stopping price control among the monopolizers—which the Department of Justice can do in six months; second, by enforcing the Sherman anti-trust act to what the supreme court found it to mean before it introduced the 'rule of reason,' and, third, by reducing the tariff on all monopoly-controlled articles to the point where competition would be revived."

Thompson is one of the foremost experts on co-operative marketing, but he does not believe that the federal government should control their administration through the influence of loans.

You Pay

No more, no less... but
Quaker Oats has the
flavor

THE difference in breakfast oats is in their flavor. The price mostly is the same.

Millions demand the Quaker brand because of its tasty, wonderful flavor. For flavor is the important point in food.

Some 50 years were spent perfecting that famous Quaker flavor. Once you taste it, you are spoiled for ordinary oats.

Quaker milling, too, retains much of the "bulk" of oats. And that makes laxatives less often needed. Protein, carbohydrates and vitamins and "bulk" are thus combined to make Quaker Oats an excellently balanced ration.

Get Quick Quaker (cooks in 2½ to 5 minutes) or Quaker Oats today at your grocer. See how much finer tomorrow's breakfast will be than today's.

SECURITY

An ancient and modern necessity.

The first lock was invented by Ab the cave man. Before leaving home to catch the eight-nineteen, Ab got in the habit of showing a big boulder against the door of his abode.

Although men from time immemorial have found it necessary to guard what they own from the greed of others, most of the improvements that have been made in locks and keys, have been made by Yankee ingenuity in the last seventy years. The mind can hardly conceive the infinite variations in the millions of Corbin Cylinder Locks. The family resemblance is striking, but every lock has its individual key.

Expert Says Fall Is Best Time To Sow Grass Seed

Madison—(AP)—It is not too late to sow grass seed for lawns, says Franz Aust, landscape gardener of the faculty of the college of agriculture at the University of Wisconsin. Fall is the best time to seed lawns, he says, because the grass gets strong root formations, and is thoroughly developed before the hot weather of the summer.

It is too late to sow blue grass seed or white clover, but red top seed can be sown as late as Nov. 10, as it requires only from five to ten days for germination. Blue grass requires 21 days for germination and is liable to be winter killed if put in the ground this time of year.

The best plan to follow for those who wish to start a lawn this late in the fall, thinks Mr. Aust, is to sow red top seed now, and in then sow blue grass and white clover on top of it in the spring. Three pounds of red top seed is enough for 1,000 square feet of lawn and any seed that do not

germinate this fall will come up in the spring.

Persons who are not starting a lawn, but who wish to improve the stand of grass they already have may sow the red top seed right in on top of their present stand and let the rains wash the seed into the soil.

The spring season for sowing lawns begins as soon as the frost is out of the ground and lasts until the middle of May, but there is danger of the hot weather killing off grass that is started in the spring, says Mr. Aust.

\$5,190 GAIN SHOWN IN POSTAL RECEIPTS

September Postage Sales Helped Boost Total Quarterly Business Total

Receipts at Appleton postoffice for the quarterly period ending Sept. 30 were \$41,855.16 or \$5,190.02 more than the receipts for the same period a year ago. Receipts for 1926 were \$36,665.14.

The receipts from the sale of post office stamp papers were \$36,063.48, with an excess amount of \$9.27 received. This latter amount is the result of stamp sales in small amounts. Collections from second class postage received from publishers amounted to \$1,130.09, from permit matter \$4,243.76, box rent \$398.40 and miscellaneous \$10.13.

The increase over the quarterly period a year ago divided into monthly increases shows \$1,773.35 increase in the month of July, \$2,238.06 in the month of August and \$1,181.36 in the month of September.

MANY HOURS ARE SAVED FOR APPLETON FREIGHT

A saving of from two to 24 hours for Appleton and Wisconsin freight consigned to eastern and southern destinations has been accomplished with the opening of the new \$9,000,000 freight yards of the Chicago and Northwestern railroad at Proviso, Ill., according to W. B. Basing, general agent for the railroad here.

The saving in time will be effected through the elimination of the present congested railroad traffic situation in Chicago. The new yards which have an area of 1,250 acres have a track capacity of 26,000 cars and conveniences which will permit handling of 15,000 through cars daily. The transfer house for less than carload freight covers an area of 21 acres. It is 1,420 feet long and 720 feet wide and has a daily capacity of 700 cars of merchandise.

The congested situation of the various railroad yards within Chicago has been the main reason for freight delays, according to Mr. Basing, but with the new Proviso yards located

directly west of the city of Chicago and having connections with the three large belt lines running out of the city, the trouble ought to be remedied.

The Frightful Pace of Modern Jazz

by

Judge William McAdoo
CHIEF MAGISTRATE
OF NEW YORK CITY

FOR years the stream of life in America's greatest metropolis has swirled and eddied around the desk of its chief magistrate. Here come shattered wrecks of humanity from every social strata... some to be made whole again... others so far gone in drink, drugs, and depravity that it is impossible to rekindle the desire to live a normal, healthy, happy life.

These youthful rebels striking blindly against restraint are emotion-starved children, childish seeking happiness. Broken blossoms fluttering on the edge of life's fatal vortex. What can we do for them? How can we protect them from the skillfully baited lures that tempt them?

Judge McAdoo writes about a subject that is vital. Untainted by propaganda, this article, packed with life histories, shows us an accurate and undistorted picture of things as they are.

TWO WOMEN LINCOLN LOVED

BY WILLIAM E. BARTON
AUTHOR OF "THE LIFE OF ABRAHAM LINCOLN"

The great heart of Abraham Lincoln beat for humanity—but for three women it quickened its pace. For his courageous wife whose devotion carried him through the darkest days of the war. And for two others—two women who shaped his earlier years. Their little-known and charming stories make delightful reading.

THE SPANISH PRISONER

A New Novel BY FREEMAN TILDEN

Long after all good citizens should be in bed, you will be following the impetuous Colonel Fenimore on his breath-taking series of adventures, that start with the attempt to rescue the beautiful Spanish heiress; and the even more thrilling experiences of his lovely daughter, in her efforts to rescue the Colonel from his gloriously chivalric, but somewhat impractical, devotion to beauty in distress.

This fast-moving, absorbing novel starts in the October issue.

OFFER TRAINING FOR GIRL SCOUT LEADERS

Five Consecutive Days of Study Will Be Offered at Lawrence College

A course in Girl Scout leadership will be offered by Lawrence college under the direction of the regional director of the Girl Scouts, Appleton. The course has been working in conjunction with college authorities in order to provide such a class. Five consecutive days of thorough study and training will be given in November. Anyone interested may enroll. Appleton Women's club carries on all Girl Scout work here, using its club rooms as headquarters. Without the club's guidance the National Headquarters of the Girl Scout organization would put on a campaign which would mean an additional duty for Appleton. The club requires that one of its directors be qualified to take charge of Girl Scout work. The number of troops have varied from six to ten. The school or the club rooms serve as meeting places for the troops. As there have not been in the past enough leaders to meet the demand of the number of groups wishing to organize, this new course at Lawrence college is to be offered. The system is entirely satisfactory to all national authorities, according to Mrs. S. C. Shannon, general secretary of Appleton Women's club.

CITY PUMPING STATION SETS ANOTHER RECORD

A total of 64,500,000 gallons of water was pumped by the city pumping station during September, according to the report of A. J. Hall, superintendent and bacteriologist of the plant. This is an increase of 7,100,000 gallons over the corresponding period last year. The average daily pumpage of 2,887,000 gallons was 282,000 gallons greater than last year. The report showed that the average count of bacteria in raw water entering the plant was 9,769 per cubic centimeter and when the water had gone through the filtration plant and was delivered to the city, it contained an average of only one bacteria to 10 cubic centimeters of water. The bacteria removal efficiency of the plant was rated at 99.99 per cent.

12 MEN REGISTER FOR FIRST AID INSTRUCTION

Twelve men have registered for the first aid class to be a part of the curriculum of the vocational school, which will open the week of Oct. 10. According to Herb Heilig, director of the school, there still is room for 20 more students in the class. The

course will consist of ten lessons during the winter months and a local physician will conduct classes.

The class is for shop men and any man working in a valley concern who wants to gain a knowledge of first aid, is invited to join. Work can register by writing or telephoning the vocational school or by having their employer do so. A number of concerns hold first aid classes of their own each year. The work of the safe-

ty school course will be about the same, but it will be of special service for the employees of mills where no aid work is done.

The trades and industry department showed the following enrollment cabinet making 31, machine shop 22, drafting 28, electrical 22, shop mathematics 2, and painting 4. Of these, classes in machine shop, drafting, mathematics, electricity, and painting have not been filled.

The commercial department has 139 persons enrolled as follows bookkeeping 34, accounting 15, typewriting 41, shorthand 19, show card writing 17, business English 11 and penmanship 2. More persons may enroll in all these classes with the exception of bookkeeping and typewriting.

In the home making department the enrollment is divided as follows plain cooking 13, baking 12, meal planning 11, plain sewing 17, chil-

CONSTRUCTION IN U. S. SLUMPED DURING JULY

The building industry of the nation has entered the fall season without a definitely established change in the persistent downward curve of activities, according to the national monthly building survey conducted by S. W. Strauss and company.

The report for August shows Wisconsin in eleventh place among all states. Milwaukee ranked thirteenth among all cities of the United States. Although the total for the month of August this year was \$35,242,235 less than in August, 1926, yet it was \$45,719,711 greater than the total for July of this year, the report showed.

Men's clothing 9, remodeling and renovation 22, cutting and fitting 25, the study of fabrics and the selection of ready-to-wear garments 2, wool and silk 11, millinery 9, home nursing 6, child training 1, and cotton dresses, 16. More persons may enroll in the smaller classes.

The Americanization department has enrolled 41 in English class for foreigners. Five have registered in classes in public speaking and four for algebra. French is to be offered, as 10 persons have enrolled for such a class.

PARENTS URGED TO VACCINATE CHILDREN

School Nurse Reports Smallpox Case in Family of Kindergarten Pupil

Neenah—A plea was made to parents by Miss Ada Garvey, school nurse, in her monthly report submitted to the meeting Monday evening of the board of education, to have all kindergarten and lower grade children vaccinated. This action was prompted by a case of smallpox developing in a family from which a child is attending a kindergarten. Sixteen lower grade pupils are not permitted to attend school at the present time on account of not submitting to vaccination as ordered last year. Outside of the smallpox case, the general health of the school children is excellent, the report stated.

Superintendent C. F. Hodges submitted a communication from J. E. Clubb, architect, which stated that necessary changes have been made to plans for the new senior high school and that specifications had been prepared for the bidders who will submit their bids at a meeting of the board to be held at 1 o'clock on the afternoon of Oct. 11.

Miss Garvey was authorized to attend the state nurses' convention Oct. 10, 11 and 12 at Milwaukee. A communication from S. F. Shattuck, relative to the functioning of the Children's committee which was appointed to entertain the teaching force of the public schools, was read. Bills amounting to \$17,732.93 including teachers' and janitors' salaries, were authorized.

\$133 DEPOSITED BY 610 PUBLIC SCHOOL PUPILS

Neenah—A total of \$133.84 was deposited by 610 pupils of the grade schools Tuesday morning during the weekly banking hour. At Roosevelt school 252 pupils deposited \$22.53; at Washington school 152 pupils deposited \$15.53; at McKinley school 86 pupils deposited \$15.53 and at Lincoln school, 110 pupils deposited \$13.40. The fourth and fifth grades at McKinley school and the seventh and eighth grades at Roosevelt school were 100 per cent. every pupil making a deposit.

3,887 BOOKS TAKEN FROM LIBRARY IN SEPTEMBER

Neenah—The total circulation of books at Neenah public library September was 3,887, according to the monthly report of Miss Mae Hart, librarian. This is a decided increase over the circulation for the same month in 1926. Of this total, 2,393 books were taken out by adults and 1,494 by children. The report shows 45 new borrowers. There were 51 books taken out on teachers' cards, 128 books were renewed and 123 books went to the rural homes. The attendance at the reading and science room during the month was 563, which number also is an increase over the month of August.

JORGENSEN DRILLS TEAM FOR OCONTO FALLS GAME

Neenah—The high school football team started Monday evening on its week of hard practice to prepare for the Oconto Falls game Saturday afternoon at Oconto Falls. The game last Saturday with St. Peter high school team of Oshkosh, showed up weak spots in the Neenah lineup which Coach Ole Jorgensen will endeavor to bolster up during the week. He will take 25 players to the northern city Saturday in an effort to win from which is considered one of the best teams in the conference.

The committee on dedication, appointed by Kiwanis club is preparing a program for the dedication of the new Citizens' Athletic field which will take place between halves of the Neenah-Sturgeon Bay game on the afternoon of Oct. 15.

THEDA CLARK HOSPITAL IS ON APPROVED LIST

Neenah—Theda Clark hospital is among the Wisconsin hospitals awarded a rating of full approval by the American College of Surgeons, Chicago. The recognition is for adoption of fundamental requirements for right care of patients and rendering of community service as provided in the minimum standard laid down by this organization, charged with the responsibility of the great movement known as hospital standardization.

DRUNK SENT TO JAIL FOR SECOND OFFENSE

Neenah—Nester Johnson, who paid a fine of \$10 and costs Monday morning after his arrest on a drunk and disorderly charge, was arrested again on the evening on a similar charge and placed in the city jail. He was sentenced Tuesday morning by Justice Marras to serve 30 days at the Winnebago workhouse.

Oscar Johnson paid a fine of \$10 and costs Tuesday morning to Justice Johnson, after his arrest on a drunk and disorderly charge.

ST. PAUL CHOR SINGS AT CHURCH ANNIVERSARY

Neenah—St. Paul English Lutheran choir was in Oshkosh Sunday evening to assist in the twentieth anniversary celebration given by St. John church. The Neenah choir presented the musical program in the services, which commenced a week of celebration. The singing feature of the program was a quartet of four voices, led by Helen Owens, of Neenah, organist at Trinity Lutheran church at Appleton, which won for the choir an ovation of praise. The choir was assisted by the choir and soloists of St. John's church.

Neenah—Miss Sylvia Sorenson entertained a group of young people Sunday evening at her home on E. Franklin-ave. in honor of her birthday anniversary. A dinner was served at 6:30 followed by bridge. Prizes were won by Earl VanVynin and Mrs. T. H. Collip. Those from out of the city were Mr. and Mrs. VanRyzin of Appleton and Mr. and Mrs. VanRyzin of Kimberly.

Announcements have been received of the engagement of Lieut. Robert E. Jaspersen, U. S. Navy, son of Mr. and Mrs. Robert O. Jaspersen, former Neenah residents, now of Milwaukee, and Miss Catherine Lee Wrenn, daughter of Mrs. Harry Lee Wrenn of Washington, D. C. The announcement was made by Mrs. Wrenn who is at present in Paris with her daughter. The wedding is planned for early December at Annapolis.

Knights of Pythias will entertain Tuesday evening at a stag dinner in Castle hall for members who have belonged to the lodge for 25 years or more. There are more than 40 Neenah men who have been members of the lodge for that length of time.

Miss Estelle Muenster, daughter of Otto Muenster, and Clarence W. Johnson, were married at 1:30 Tuesday noon at the Muenster home on Isabelle-st. The ceremony was performed by the Rev. E. C. Kollath, pastor of Immanuel Lutheran church, in the presence of the families. A dinner followed the ceremony after which Mr. and Mrs. Johnson left for a trip through the state. They will be at home at Neenah where Mr. Johnson is employed at the plant of the Neenah Shoe company.

SOCIAL ITEMS AT MENASHA

Menasha—Miss Lillian Braeske, daughter of Mr. and Mrs. Jacob Braeske, 225 Third-st., and William Seidling of Boyd, Wis., were married at 9 o'clock Tuesday morning at St. Mary church by the Rev. John Krumm. The attendants were Miss Agnes Kosloski, cousin of the bride, and Leonard Seidling of Boyd, brother of the bridegroom. The ceremony was followed by a reception and dinner at the home of the bride's parents, attended by 75 relatives and friends. A platform on the lawn was provided for dancing. Mr. and Mrs. Seidling will spend their honeymoon with relatives at Boyd, Stanley and Chippewa Falls. Upon their return they will reside at 825 Third-st.

The Ladies Auxiliary of the Germania society will give a public card party Monday evening, Oct. 10, Schaffkopf, whist and bridge will be played and prizes awarded. The card party will be preceded by a short business session.

Ladies of Trinity Lutheran church will hold a bazaar and chicken supper at Trinity school hall, Thursday, Oct. 6. The supper will be served from 5 to 8.

The Elks will hold a meeting Wednesday evening at their club rooms. Important business will be considered.

Menasha Women's Relief Corps will give a card party Wednesday at S. A. Cook armory. Prizes will be awarded and lunch served.

The Acacia club will hold a meeting Saturday evening at the Masonic rooms for the purpose of planning its winter work. New committees will be appointed.

The ladies of Sanctuary society of St. Patrick church will give an open card party Thursday evening at St. Patrick school hall. Prizes will be awarded.

CHURCH YOUNG PEOPLE HOSTS TO TEACHERS

Menasha—The young people of the Congregational church were hosts Monday evening to the faculty of the Neenah public schools. Arriving at 8 o'clock the guests were greeted by the committee and the pastor in the ladies parlor, after which they were escorted to the gymnasium where all were kept busy with games. About 10:30 the guests marched down to the Sunday school rooms decorated for the occasion and filled with small tables beautifully arranged for groups. The refreshments were tastefully and artistically arranged and served.

TWO RECKLESS DRIVERS ARE FINED \$100 LIMIT

Menasha—Judge Goss, in municipal court at Oshkosh Monday, set a new precedent for reckless drivers' fines. Two men were brought before him each of whom were fined \$100 and costs. Judge Goss declared that nothing but the limit would have the desired effect in those particular cases.

TAXI LIVERY BOUGHT BY RED GRANITE MAN

Menasha—George W. Schneider, owner of Menasha Taxi Car Company, has sold the property, including the taxi cabs, to the Red Granite Man. The new owner is to be operated by Wallace Lighter.

ON MENASHA'S BOWLING ALLEYS

K. of C. LEAGUE
Menasha—The Shamrocks of the Knights of Columbus league won two games from the Pintas at Menasha bowling alleys Monday evening and the Cordovas took two from the Santa Marias. The Marquettes won the odd game in their tilt from the Madonnas. Much of the Marquette team rolled 213 for high individual game and 555 for high series.

Too Busy For Vacation, He Rides Roller Coaster

New York—Nicholas M. Schenck, 20 years without a vacation, a man who directs the policies and movements of a \$200,000,000 concern, gets his biggest pleasure "kick" out of the breathless drops and curves of an amusement park roller coaster.

Schenck recently became head of the Loew theatre company. The Loew properties include more than 300 theatres in 100 cities, and the Metro-Goldwyn-Mayer motion picture company.

FOLLOWS LOEW
Until three years ago, Schenck was vice-president of the Loew organization. Upon the retirement of Marcus Loew because of illness, he was made executive vice-president. When Marcus Loew died, a few weeks ago, Nicholas Schenck succeeded to the presidency.

Every morning finds Schenck at his desk in the Loew State building, above the clattering traffic of Times Square. During the summer, almost every evening finds him at the Palisades Amusement Park, which he owns jointly with his brother, Joseph Schenck. There he unflinchingly takes a whirl on one of the many riding devices, whence may be had a vista of Manhattan across the broad Hudson.

"HELLO, NICK"
Schenck takes an active interest in business of the concessionaires of the park, which he appears. "Hello Nick," may be heard from the small-est fruitstand stand to the manager of the \$150,000 scenic railway.

At the age of 20, Nicholas began his business career as a chemist. He followed this calling for only three years. At that time Marcus Loew had a dream of a chain of motion picture theatres, and Nicholas and his brother, Joseph, joined him in the venture.

The motion picture then was questionable, both as entertainment and as an investment.

RUEGG DESCRIBES TRIP AROUND WORLD

Gives Menasha Masons Gavel Made from Olive Tree from Near Bethlehem

Menasha—The Rev. S. G. Ruegg, former pastor of the Congregational church, who gave the olive on his trip around the world and created the Eastern Star and DeMolays Monday evening presented the Masonic lodge with a gavel made of olive wood taken from a tree near Bethlehem in the Holy Land. The presentation was made to W. R. Winch, worshipful master, who accepted on behalf of members.

Mr. Ruegg's talk was in the nature of a travelogue and was interesting and instructive. He was accompanied by Mrs. Ruegg and after a brief stop in California took passage for Hawaiian Islands, the climate of which he found very delightful. He also found it a great sugar raising country. He found the Japanese very progressive and imitative particular of this aspect of their civilization. China lacks nationality according to Mr. Ruegg and the people are backward compared with those of other countries. India is centuries behind the times and is making very little progress. The people as a rule are very little enlightened and their mode of living is very low. From India Mr. Ruegg went to the Holy Land. He advised visitors if they wanted to grasp its beauty they stay out of Jerusalem. On his entire trip he devoted many addresses before colleges and universities and also did considerable writing for newspapers he said.

MENASHA PERSONALS

Menasha—E. A. Oberweiser of Stevens Point visited his mother, Mrs. Catherine Oberweiser, Sunday.

Dr. and Mrs. L. D. Costello have returned from their wedding trip to northern Michigan.

Attorney and Mrs. S. L. Spengler and children have returned from a weekend visit with relatives at Stoughton.

WET WEATHER DELAYS FILLING IN GROUNDS

Menasha—The work of filling in the grounds of John Senebender's new residence property at Brighton is temporarily delayed by the wet weather. Tree surgeons are working on the trees. Both the main residence and care-takers home are enclosed and the interior work on both is well advanced.

CONSERVATION CLASS WILL WORK IN WOODS

Madison—(AP)—A short course in timberland management, designed especially for logging superintendents, lumber camp foremen, forest rangers and fire wardens will be held by Wisconsin's college of agriculture, Oct. 25 to Nov. 12.

The first part of the course will be conducted in Madison, but a considerable part of the time will be spent in the woods where selective cutting operations are actually in progress, according to officials of the College. The United States takes states forest station, the United States forest products laboratory and the Wisconsin conservation commission will co-operate with the college in providing instructors, laboratory equipment and material.

Six items will be emphasized during the course: principles of forest management; identification of Wisconsin tree trunks; surveying; log grading and timber marketing; fire protection and recognition of defects in standing timber; P. C. Wilson and John Senebender of the faculty of the college will be especially concerned in this new educational venture.

PEABODY DENOUNCES MODERNISM IN HIS CONFERENCE TALK

Appleton Man Defends Doctrine That Man Has Power to Choose

Fond du Lac—The Rev. H. E. Peabody, Appleton, moderator of the Wisconsin Congregational conference being held here Monday night gave his arguments against "modernism."

He said that knowledge of the physical world has multiplied ten-fold in the last few generations and that "we are mentally drowsy and dull, just as we are physically drowsy and dull after a delicious, super-abundant dinner."

He believes that "the spirit of man has been partly asphyxiated by the heavy glasses of materialism," so engrossed in the newly discovered laws of nature that we have lost interest in the great First Cause of all things."

Furthering this point he gave the scientists' explanation of the atom, its subdivisions into the electron and asked what the end of this speculation into the original force might reveal. He gave the conclusions of the "behaviorists and mechanists," that "whether man commit murder or not he is not to blame; his conduct is always determined by his material surroundings, by his environment. He has no real power of choice. The power of choice is an illusion, fashioned by those old folk who believe in God. There is no such thing as duty. There is no such thing as right or wrong in the old familiar sense."

This doctrine, he said was accepted because it is "so simple."

"In direct contradiction to the mechanists, we know, we know direct, that we have power to choose. You have earned two hundred dollars by hard work. You know you have power to choose whether you will invest

WAR VETS' MOTHERS MEETING AT CAPITAL

Gov. Zimmerman and Mayor of Madison to Speak at Banquet Tuesday Night

Madison—(AP)—Mothers of World War soldiers, attending the ninth state conference of the Service Star Legion, Tuesday transacted business of the organization and created the banquet Tuesday night at which Governor Fred R. Zimmerman is to address them.

The governor's subject is announced as "Wisconsin."

The convention continues through tomorrow.

Mrs. George Roy, LaCrosse, state president of the Service Star Legion, which takes its name from the wartime service flag, presided over today's sessions, which opened at ten o'clock this morning with a meeting of the state board of the organization.

Registration of delegates, the board meeting, a musical program, addresses of welcome and responses, announcements of committees and reports of officers filled the day's program.

At Tuesday night's banquet Mayor Schmedeman will speak on "Madison" after Governor Zimmerman has made his address as the state's representative.

Madison girl scouts are acting as pages during the convention.

Mrs. Bruce Maxwell, Indianapolis, national executive secretary of the organization, is the principal speaker on the Wednesday program. Further committee reports, revision of the Legion constitution and other business round out the program, with entertainment features including several dance numbers presented by a dancing school.

WORLD IS WATCHING EXPERIMENT IN U. S.

Speaker Says Destruction of Saloons Has Been Beneficial to Nation

Fond du Lac, (P)—The world is watching the outcome of prohibition in this country, and its success or failure will greatly influence those countries that are now striving to obtain passage of prohibition measures, said Alexander J. Matheson, Janesville, in speaking this afternoon before state conference of Congregational churches.

The destruction of the saloon has a large measure contributed to the economic well-being of the country, said Mr. Matheson, and has done away with "bad Mondays, or bad days" following pay days in commerce and industry.

"There are other benefits," he said, "which far transcend mere material and financial benefits. For bodies drugged and diseased with alcohol, we now have men clean, decent, and upright. Instead of a mind besotted and befogged, we have the clear-headed man, capable of his tasks."

"I must recognize that our prohibition laws are not enforced as they ought to be; that unless we have a reasonable adequate enforcement in due time, conditions will become very bad."

"The man of social standing and influence in the community takes a terrible chance when he disobeys the laws of the land and flaunts the United States constitution. What we want in the country are men and women who are both personally and politically dry."

"The business of enforcement is difficult, and need not even be attempted, but 20 or 25 to finish the job completely. The Eighteenth amendment is forever a part of our constitution, it cannot be repealed or vitally amended in a hundred or a thousand years. Our enemies know this too well to suit them. The Volstead act and our majorities in Congress are secure for the present. Conditions in Wisconsin have improved immensely since the convincing message of the Governor in vetoing the Duncan bill, designed to give the people 2.75 per cent beer, and further designed to serve as an undermining operation."

"The best agency to lead us and the churches is the Anti-Saloon League, which has led us in the past, and which will lead us in the future to final victories if we will lend our aid."

LIBERTY BOND OWNERS

TRADE IN SECURITIES

Appleton persons owning second Liberty loan 4 1/2 per cent bonds which will cease to draw interest after Nov. 15, have in a great many instances turned them in on higher interest bonds according to Appleton bankers.

Reports from the treasury department at Washington are that many persons are neglecting to convert their bonds.

In very few instances, it was said, are Outagamie-co persons preferring to hold the bonds as souvenirs. Some may retain a bond of small denomination as a memento but most of the certificates either are being redeemed or have been exchanged for other bonds.

This has happened extensively in the case of small holders. It was said, while persons with big incomes who are buying up non-taxable bonds have bought many but have not forgotten that they mature next month.

The total amount of the second Liberty loan, which was issued Nov. 15, 1917, was \$3,807,865,000.

Girls Who "Go Wrong" Make Snappy Comebacks

Madison—(P)—If modern youth "goes wrong" as the moralists maintain, it stages (in its own vernacular) "a snappy comeback." This is the finding of a youth.

Miss Elizabeth A. Badger, graduate student of the University of Wisconsin, under the direction of Prof. J. L. Gillin, sociologist, has completed a study of results of paroles from the Wisconsin Industrial school for Girls. Her analysis shows that delinquent girls do reclaim places as useful members of society, at least in Wisconsin.

Miss Badger found that 28 delinquent girls of 34 released on parole were successful and only six failed. Feeble-minded girls profit quite as much by parole as their more normal sister, she found. Of 14 feeble-minded paroled, 11 were successful, while 42 of 54 normal girls were successful.

These findings are subordinate, however, to the moral pointed out by Miss Badger from the records of 68 paroles from the school. She declared the paroled girls must have "a task, a plan, and freedom."

Most of the failures were traced to lack of an occupation. The need for moral guidance is shown by the fact that there was a high percentage of failures among paroles with no religious affiliations—32. Protestants were successful and 3 failed; 16 Catholics were successful and 3 failed; 5 non-church members were successful and 4 failed.

How freedom from former associations helps paroled girls to success is indicated by the fact that 17 succeeded and 10 failed when paroled to parents; 29 succeeded and 4 failed when

LIBRARY AVAILABLE FOR STATE DOCTORS

Extension Service Developed So Rapidly That Full Time Librarian Now Is Employed

Madison—(P)—The University of Wisconsin library and extension service is anticipating increased demand for the medical extension library—a

small library service for doctors of the state. This work is carried on with the cooperation of the medical school of the university and the state Medical Society.

Miss Frances Van Zandt has been appointed full time librarian for the medical library service.

The package library service to physicians was organized some time ago under Miss Almira J. Scott, director of the department of debating and public discussion in the Extension division. Miss Van Zandt developed the successful medical library service connected with the Iowa state library.

The broadened medical library service at the University of Wisconsin is the first service of its sort to be developed by a state university.

from the new service lists sorts of material—medical text books and references books dealing with special topics; periodical; collections of reports, packet libraries dealing with special topics; brief abstracts of the literature dealing with special topics. No charge is made for this service except the postage both ways on loaned material.

The library service is part of the plan of expansion for the postgraduate medical extension work which was established 10 years ago by the state legislature at the request of the State Medical society.

CEMENTING OUR RELATIONS

President Coolidge will go to Havana to be present at the sixth international conference of American states which begins its session Jan. 16th. This is the second time that the president of the United States has left American soil upon a definite diplomatic mission. The purpose is, of course, to break down the barriers that exist between South and Central American republics and the United States, and to try to convince them of the good faith and disinterested policies of the government at Washington. In other words, it is a friendly gesture toward the Latin-American states, most excellently conceived and timed.

The last year has been one of hard strain on our diplomatic relations with our southern neighbors. Some ill feeling toward the United States was caused by our attempted mediation in the Tacna boundary dispute, then followed the acute situation in Nicaragua, coupled with intervention, the threatening controversy with Mexico, and now a mild difference with the republic of Panama. In all of these incidents Latin-American feelings have been hostile to the United States. We have for generations been under suspicion as to the ultimate interpretation and purposes of the Monroe doctrine. There is a general feeling throughout South and Central America that our foreign policy is dictated by dollar diplomacy and that in the background is a desire to exploit the southern continent for our benefit.

President Roosevelt's peace missions were only partly helpful. Their good effects have long since been dissipated. We need closer official contact with the Latin republics. Personal touch with the president on their own home ground will do more to dispel misunderstanding and prejudices than months, or even years, of diplomacy. The meeting in Havana is a rare opportunity to greet our southern neighbors first hand, to confer with them and to discuss frankly our policies and relations with them.

It is the speeches of politicians in congress which alarm South and Central America and give them false impressions of our policies, rather than notes from the state department and orders to the navy. It is within the power of the president, as of no one else, speaking face to face to an audience, to convince them of the good will and good faith of the nation, and this is what he should be able to do at Havana. Excellent results ought to attend his visit there.

A NEW IDEA OF ORGANIZED LABOR

The outstanding feature of the report of the executive council of the American Federation of Labor at the national convention which is in session at Los Angeles, was that a definite change of public opinion toward labor unions has taken place. Coupled with this was the statement of healthy conditions within the organization. Regarding the trend of public opinion toward organized labor, the report says that employers as well as the people "are beginning to see that the union is not simply a militant organization with no interest in work itself, but that in addition to its militant functions the union is the agency through which the workers can make their fullest contribution to industry and society."

We think this conclusion is well sustained by the facts. While the change has been going on for several decades, it has reached its greatest acceleration since the Armistice. The World War helped to break down a number of preconceived ideas. It changed the mass viewpoint of society. Perhaps it did not recognize it at the time, but the seed was planted and the forces were at work. As a result of the searching experiences of 1914 to 1918, the world, and America along with it, has become more tolerant, more introspective and more candid. Labor has benefited by this educational and

inspirational renovation. People have been more ready to recognize the inherent righteousness and justice of the organized labor movement, and to be less arbitrary in their condemnation of it as a whole because of the excesses of a few. Labor has rejected and cast aside the menace of communism and the illusions of socialism. It has proved that it is loyal to American institutions and to our form of government. It has put its house in order and made its leadership effective.

It is to be expected, therefore, that organized labor has penetrated far into public confidence. The people are for its aims and purposes. They want to see it succeed along sound and ethical lines, because they believe in its cause. Labor faces its greatest opportunities. The future is full of promise. Sane and orderly development of its program will not only preserve public confidence but will assure its ultimate success all along the line.

VON HINDENBURG'S PLACE IN THE SUN

General Von Hindenburg, president of Germany, has just passed his eightieth birthday. The event was made an occasion for a demonstration in Berlin and throughout the country which is said to have outranked any popular tribute ever paid the kaiser or a former emperor. One hundred twenty thousand people congratulated him at the Berlin stadium alone, and for five miles he had driven through ovals from hundreds of thousands. There were great hosts of visitors from all over Germany. The pomp and splendor of autocracy in its palmiest days never drew forth such an outpouring or such an outburst of acclaim.

There is, of course, a reason. Hindenburg fought the kaiser's war as only a master general like him could do. True to his traditions, he remained faithful to imperialism until the day of his election as president. From that day on he ceased to represent any party or any formula of government. He took an oath to support a democracy while his heart preferred a monarchy, and he kept his oath inviolate. He devoted himself to but one ideal—the liberation and unification of Germany. How well he has succeeded in uniting the various factions and parties of the fatherland is indicated by the great popular reception with which he was honored on his birthday while the indications are that the remaining occupied territory will be freed at a relatively early date. In his speech of acknowledgement Von Hindenburg reiterated his devotion to the ideals he had embraced at his inauguration.

Strange as it may appear, it is to Hindenburg, that towering exponent of autocracy and discipline, that the success of republican government in Germany is chiefly due. It was a violent change at best, and that it should have been wrought under the administration of one who inherently disbelieved in it, is more extraordinary. But Von Hindenburg put country above self and politics and party. It was to a restored and effective Germany that the former general devoted the remaining years of his life. The machinery and the method of achievement were to him less important than the achievement itself. That is why today Germany is making an altogether unlooked for recovery and is rapidly being restored to her former economic position. She still has a long road to travel, but the destination seems assured. In the meantime the German people have been educated to a better appreciation of a republic, and the chances are that it will be preserved against all opposition and prejudice.

Von Hindenburg's service to his country, therefore, cannot be over-estimated. It was given at the most critical time of her history, and it appears to have fulfilled every requirement of that trying period. In contrast with the vain-glorious and absurd Kaiser Wilhelm Von Hindenburg's giant stature as a statesman and patriot takes on even greater proportions. And there is a similar contrast between kaiserism and a democracy which must convince the German people of the superiority of the latter system.

OLD MASTERS

Oh, talk not to me of a name great in story:
The days of our youth are the days of our glory,
And the middle and old are but two-and-a-half days.
We are with all our brains, though ever so plenty.
On Fame!—I never took delight in its praises.
'Twas the sake of the high-sounding phrase,
That I sought to brighten as the best one I could.
She thought that I was not worthy to love her.
—George Gordon Byron: Sonnet written on the
road between Florence and Pisa.
What a waste of time!—a waste of time to live
without a name.

BEAUTIFUL TEETH ARE THOSE THAT CHIEF

Recently many readers have inquired about methods and means for bleaching the teeth. In the first place, good teeth are not white but rather a gray pink or pearl color. Dead teeth, like dead bone, may be white. It is an esthetic question whether it beautifies teeth to bleach them a deadly white, but from the viewpoint of hygiene and the preservation of the teeth the dentists seem to frown on this practice. A normal person's lips are never carmine; the lips become carmine only in such grave states as prussic acid (hydrocyanic) poisoning, carbon monoxide poisoning and so on.

Beautiful teeth are of course sound and apparently sound, even or regular, free from stains or discoloration, and clean and glossy, but not white. When the teeth are bleached to an unnatural whiteness, the effect is rather displeasing to the esthetic sense, because it invariably suggests artifice. Not that there is any good reason why a woman shouldn't use carmine on her lips or any other little trick that beautifies—provided she does it artistically, that is, so skillfully that the fake doesn't advertise itself to every observer. In the way of dental display, everybody likes to see beautiful teeth, but nobody likes to be reminded that the exhibit is artificial in any degree.

Dr. Joseph Head, in his excellent little book, "Everyday Mouth Hygiene," suggests for the removal of green stains that cannot be kept off the teeth by ordinary brushing, a drop or two of tincture of iodine on a wet brush, followed by a drop or two of aromatic spirits of ammonia on the wet brush to remove any remaining dark stains and brighten the bleaching effect. This may be followed by a rinsing with peroxide, one part, diluted with two or three parts of water. The iodine can be used two or three days in succession, and for a child it can be repeated twice a week. For an adult the iodine can be used every day.

An old standby for polishing and brightening the teeth is willow charcoal, which may be used nearly dry on the brush once or twice a week.

The chlorine solutions, familiar as antiseptics, are useful for bleaching the teeth.

Many dentists advise the use of common table salt, sprinkled on the brush and washed in between the teeth. Dr. Head, who, by the way, is first an M. D. (doctor of medicine) and then a D. D. S. (doctor of dental surgery), as all specialists in this field should be, suggests for those who really desire a dentifrice that doesn't scratch the enamel as does precipitated chalk in most dentifrices, this formula:

Magnesium peroxide 6 parts
Sodium perborate 3 parts
Sulfurated soap 1 part
Or the perborate may be used alone, flavored with a little wintergreen if desired. It makes an agreeable antiseptic froth that gives out free oxygen, and in the presence of acid secretions it makes an alkaline peroxide of hydrogen mixture in the mouth. Sodium perborate, by the way, is an excellent remedy for "trench mouth" (Vincent's angina)—make a paste of the powder with water, spread it over the teeth and gums and hold in the mouth five minutes, once a day for a week.

QUESTIONS AND ANSWERS

Bound to Win
I am a T. B. patient, waiting my turn to enter a sanatorium. For several months I have been gaining in weight and strength and I have an excellent appetite and sleep well and feel fine. Do you think I can beat the game and how long will it take to make a good recovery? (S. S. M.)
Answer—Sure, Mike. You are entering a school where you will learn how to fight your battle. One or two years of good schooling in a sanatorium ought to turn the trick. Meanwhile be a good girl and mind your doctor.

Moron
My niece is a moron. What would be the cause of such a condition. So far as I know, none of her forebears are or were defective. She is 18 but her mind has never developed since she was 8 or 10 years of age. She has no judgment and believes everything anyone tells her. (Mrs. S. B. F.)
Answer—A moron is an individual whose mental capacity is that of a child 8 to 12 years of age. Millions of morons are good parents, good citizens, good workers, loyal friends, faithful servants, brave soldiers, and there is nothing vicious about them. Of course an adult with a child mind hasn't the judgment a normal adult has, and hence such an individual is more readily deceived and misled. For this reason a child with this high grade mental deficiency requires more careful guarding and supervision at all times than the normal child does. As a rule mental deficiency is based on a defect in the family tree, not necessarily a mental defect, but any psychotic or neurotic taint. In a few cases the arrest of mental development is the result of an attack of meningitis in childhood.

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO
Tuesday, Oct. 9, 1902

Announcement had been made of the marriage of George Kurz and Miss Elizabeth Renner, both of Appleton. The semi-finals in the Riverview tennis tournament were to begin the following day. C. S. Dickinson defaulted to W. L. Conkey, Jr., the previous day in the preliminaries. In the ladies singles Mrs. W. L. Conkey won from Miss Gertrude Wood and Miss Katherine Reeve won from Miss Estelle Reid. Marriage license was issued to Anton Zuleger, Jr., of Cicero and Anna Marie of Cicero. J. M. Rogers left that morning for Washington, D. C., where he was to attend the encampment of the Grand Army of the Republic. The Crescent city bowling alleys were to be formally opened the following night with a contest between the all-American bowling trio of New York and a team of local players. Total fire losses in the city for the five years ending the previous January, according to Chief George P. McGilgan, amounted to \$287,782.

THEY YEARS AGO
Tuesday, Oct. 2, 1917

Germany's submarine warfare was being concentrated against military supply ships, according to an official announcement. It was thought that a German submarine base had been established off the coast of France in the American transport lane. Night German coastal attacks by great forces of speedily moved troops had recently earned British positions on the muddy Ypres sector were all repulsed by British defenders. Field Marshal Haig reported. W. H. Thompson and Mandy Thompson, N. D. cricketers, left the previous day for Battle Creek, Mich., where they were to assist in the construction of the training camp for the National army located near that city. Alvin Karp was captured the previous evening by members of the West End club. The club is now the "Mickie Johnson" club. 12th Street, Leont Smith, Freda Hartman, Jellon Brinkman, Louise Schultz, Lillian Kuhl, Raymond No., Jack Vincent, George Stutz, Walter Sager, Jack Greenbaum and Carl Brackman. Marriage licenses were issued that morning to Leonard Reimer of Ellington and Sarah Miller of Ellington; Howard Van Arman of Milwaukee and Anna Fowler of Appleton. John Fredrick of St. Louis, winner of the 100 yd. race, and Frank Dittmer of St. Louis, winner of the 200 yd. race, were to be the guests of honor at the Seymour lodge of Masons.

SELLING VILLAGES AT AUCTION
Washington, D. C.—Villages are being sold at auction up in New England these days as a result of the post-war depression in the textile industry, and any one who is looking for a bargain in that line will have little difficulty in picking one up.

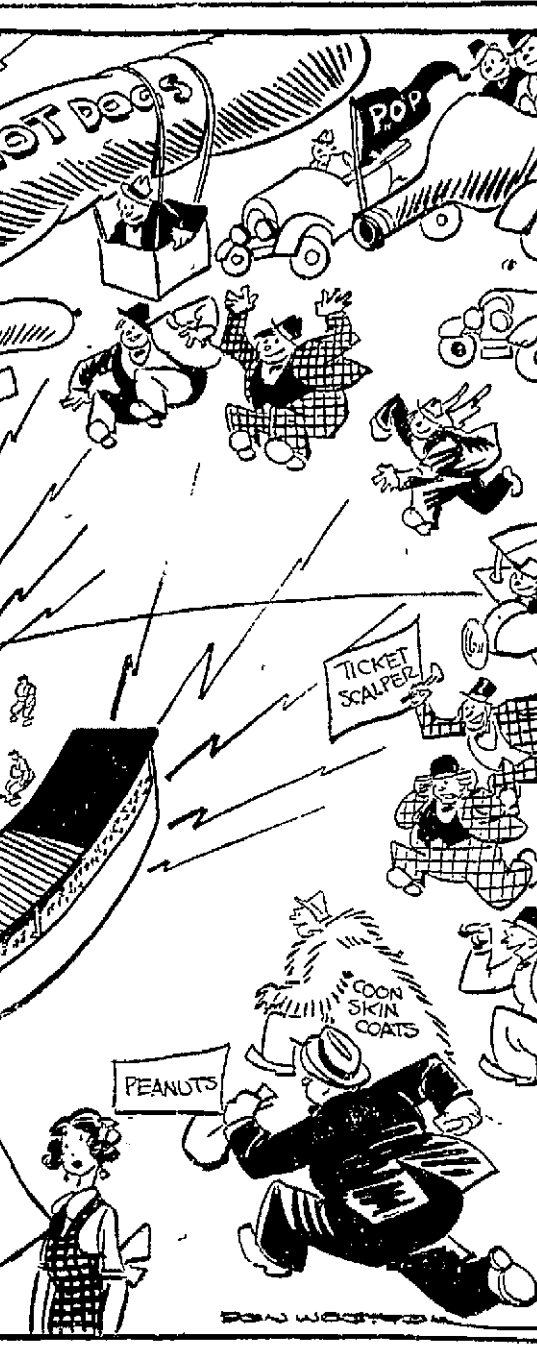

Take Manchaug, Mass., for example. It was founded more than a century ago, and consists of three granite mills, 70 dwellings, and other buildings—properties were valued at upwards of \$600,000 only a few years ago. But when it went under the hammer, Manchaug sold for a song, and not much of a song at that. Again White Rock in Rhode Island with one big cotton mill, 34 dwellings, and other dwellings was offered at auction, but it brought more than a song, for it is so situated that people can live there and work in a nearby town. The houses alone brought approximately \$100,000 and the mill is yet to be sold.

But while this sort of thing is going on, and the news of it is being widely disseminated, New England business interests are emphatic in declaring that their textile industry is far from dead or even temporarily down and out. Manchaug, they say, which was literally a deserted village for some five years, will come to life when the mills are started again, as they will be under the new ownership. Readjustments in the industry are taking place everywhere, but in the end New England will still hold a commanding position in textile manufactures.

In fact, New England is a bit touchy on this subject. Not long since an industrial commissioner from the Middle West visited various textile centers and he pronounced one of them a "dead city." Not only the business interests of that city but the state chamber of commerce, "dix" right up in their wrath to deny the allegation and denounce the allegation. They informed the commissioner's home city that what he had said was pure bunk and that he might be better occupied than in traveling about the country defaming communities that could not protect themselves against slanders and libels.

IT IS A SERIOUS PROBLEM
It is none the less true, however, that the situation with respect to New England textiles presents a serious problem. Within the last few years at least 37 mills have ceased operation—one in New Hampshire, one in Maine, seven in Rhode Island, eleven in Connecticut, and seventeen in Massachusetts. Four mills have been closed by the state, and a number—the exact number not known or not admitted—have been removed to the South, thus giving basis for the reports that the South is winning away New England's chief industry. Q. Which manufacturers of automobiles were the first to adopt four wheel brakes? M. H. R.
A. The Society of Automotive Engineers says that as far as it can remember the following cars were the first to adopt four-wheel brakes as standard equipment: Rickenbacker, Buick, Oakland, Packard, and Chevrolet.

Q. What is meant by "first-person stories" in story writing? P. A. K.
A. The so-called "first-person stories" are stories which are written in the first person, that is, as if the author were narrating them directly to the reader.

Q. Has the Kingdom of Italy ever defaulted on its National Bonds? J. M. M.
A. We are informed by the Italian Embassy that since 1860 when Italy became a unified kingdom, it has never defaulted in the payment of its National Bonds.

Q. How many islands are in the group called Thousand Islands? E. F. G.
A. There are about 7 large and 1600 small islands in the so-called Thousand Islands.

Q. When was macaroni first made? C.
A. Macaroni as we know it originated in Italy. The date which is not known definitely goes back several centuries. Macaroni is a preparation of glutinous wheat. It is believed that the Chinese made a similar product long ago.

Q. How can odors and stains caused by onions be removed from the hands? H. B.
A. Onions remove the odor and stains of onions from the hands rub with the rind of a lemon.

Q. What is the best just for the fun of it? On Broadway any night-club owner would give his silk shirt to learn the formula by which this miracle is achieved.

Q. Is it at Zell's, also, that a shoemaker pays the theater for the privilege of holding a job? Fifteen francs a day is the amount they are taxed. But, since they charge each patron a franc for showing him to a seat, they get their money back with interest.

Q. Oh, yes Broadway, which prides itself on so many good "rackets," might well come over for a few lessons from the shrewd Frenchman.... (Copyright, 1927, NEA Service, Inc.)

The PENNY PRINCESS

BEGIN HERE TODAY

VERA CAMERON, plain business girl, allows herself to be transformed into a beauty by JERRY MACKLYN, her boss, advertising manager for Peach Bloom Cosmetics Co. Jerry falls in love with Vera, also called Vee-Vee, and his love persists even after he learns Vera consents to the transformation only because the man she falls in love with, SCHUYLER SMYTHIE, ignores her.

Vera starts her vacation at Lake Minnetonka because Smythie is there. He and other guests mistake her for VIVIAN CRANDALL, ex-princess, who after a Paris divorce is in hiding. Vera tries to convince everyone of her true identity but when she realizes Smythie is in love with the girl he thinks she is, she finds further confession difficult.

Hotel guests returning to the city notify the Crandalls of their supposed daughter's whereabouts. Schuyler, who still thinks she is Princess Vivian, steals a car and they flee. He confesses his love for her and proposes they be married at once. Believing he loves her for herself alone, Vera tells him the truth, substantiating her identity with Jerry's letter. The letter is furious, revealing himself as a fortune-hunter. After his anger subsides, he is terrified by the thought that perhaps she is the princess after all and is trying to outsmart him. He attempts to retrieve but Vera has seen his true character.

Two masked men stop them and Vera is whisked away by them in an airplane. She is taken to a shack in the mountains where PRINCE IVAN, Vivian's ex-husband, awaits her. The prince and the princess are married when the men announce they will hold them for a ransom from the Crandalls. Vera convinces the prince that they must play the part, otherwise the men, angered at finding her poor and unable to draw a ransom, will murder them. Meantime Jerry Macklyn in New York reads an account of what has happened. When he reaches his office, he is greeted by ROSEMARY FITCH, who stuns him with the announcement she has seen Vera that very morning.

NOW GO ON WITH THE STORY

CHAPTER XXXVI

Jerry Macklyn knew then how a condemned man feels when he is reprieved. He literally collapsed into his chair.

"Say that over again and say it slowly. Remember I'm a weak man, Rosemary," he begged, grinning wanly at her.

"I said," Rosemary laughed, "that I saw Vee-Vee Cameron this morning. I was in the Bronx subway. We were just pulling into the Seventy-Second street station when the train stalled in the tunnel for a minute. You know how it is — to let another train pass," she explained breathlessly.

"Yes, yes, go on," Jerry urged her impatiently. His brain was whirling. So Vee-Vee had escaped somehow. God bless her! She was in the city, would be here any minute—But that, on the face of it, was ridiculous, unless the kidnapers had returned her to New York. All of his hideous worry for nothing! But oh, the relief!

"I saw a girl pushing her way to the doors to get out at Seventy-second. She had on glasses, Mr. Macklyn, like she used to wear, but I saw right away it was Vee-Vee. I had just been reading in the paper where this Vivian Crandall had been kidnapped and that she'd been using Vera's name and I didn't know that in the world to make of it. You know, for a minute I had the wild idea that it was our Vee-Vee that had been kidnapped, and I tell you I was scared—"

"That was a wild idea," Jerry agreed weakly, mopping his forehead with his handkerchief. "What did you say to her?"

"I didn't have time to say much," Rosemary replied. "Mr. Macklyn, but I had one of those booklets in my hand—you know, 'The Modern Story of an Ugly Duckling,' and I'd been comparing Vee-Vee's picture with that Vivian Crandall's, in the paper."

"I thought I told you not to let anyone at all see those booklets, that they were not to go out of this office!"

"I know, Mr. Macklyn," Rosemary flushed. "But I'd just taken it home for mother to see. Surely mother doesn't matter. And anyway what harm can it do for Vee-Vee to have one of them? The story's about her—"

"You gave Vee-Vee one of those booklets?" Jerry demanded.

"Yes, I did," Rosemary burst into tears. "I don't see what you're so sore about! I was just saving to her 'Vee-Vee.' I said, 'I've just been reading in the papers about Vivian Crandall and I was scared to death it was you. I never was so glad to see anyone in my life,' I said."

"And what did she say?" Jerry urged

her, weakly collapsing again and closing his eyes.

"She didn't answer me. She was just looking at the booklet I held in my hand, open to her picture. She said, 'Let me see that, please,' as if she was startled. I remembered what you'd said about Vee-Vee's not wanting the booklets to be sent out, because she didn't want everyone to be calling her 'The Peach Bloom Girl' and I said, 'Oh we're not sending them out, Vee-Vee, until you come back from your vacation. I just took this one home to show mother. Here, you can have it.' I said, and she took it, and just then the train jerked into the Seventy-Second street station and Vee-Vee pushed her way on out of the car."

"I didn't have a chance to say anything else and neither did she, but she turned at the door and smiled at me and waved. Gee, I was glad to see her. But what I can't figure out is why that Vivian Crandall used Vera's name, unless they were friends or something—and why, Jerry, is that why Vee-Vee had herself all fixed up to look just like Vivian Crandall? We girls have all been talking about it—how much our Vee-Vee looks like Vivian Crandall. Do you suppose she did it on purpose, so that heiress could use her name and money to do what she wanted to do, to fool people and get a rest from the reporters and everything?"

"I imagine you are right, Rosemary," Jerry pounced upon her explanation. "I bet those two girls have been having a lark," he chuckled. "But the lark hasn't turned out so well for the poor little rich girl who wanted to be just common folks, has it? She couldn't put it over, poor kid! And now she's God knows where, at the mercy of kidnapers. But I suppose the Crandall millions will get her out of it, all right."

When they had talked a few minutes longer, Rosemary suddenly developed an urgent necessity to communicate her news to a new audience. Jerry watched her trip out of the office on a pretext, knew exactly what she would do, and wished that he could help her do it. Within half an hour every employee of the Peach Bloom Company would be told that Rosemary Fitch had seen Vera Cameron, and that it was the real Vivian Crandall who had been staying at the Minnetonka, using Vee-Vee's name and setting herself kidnapped.

Jerry Macklyn held himself rigidly to his desk all that day, not even leaving his office for lunch lest a telephone call which he was more than half expecting and ardently praying for would come and find him gone. It came at four o'clock, when he had almost given up hope. Rosemary was out of the office, as she had been most of the day, gossiping with other employees about the sensational kidnapping of Vivian Crandall, who had so strangely used Vera Cameron's name, so Jerry answered the phone himself.

"Mr. Macklyn?" a low, pleasant voice—the voice of a cultured woman—came clearly over the wire.

"Yes, this is Mr. Macklyn," Jerry answered.

"I didn't have time to say much," Rosemary replied. "Mr. Macklyn, but I had one of those booklets in my hand—you know, 'The Modern Story of an Ugly Duckling,' and I'd been comparing Vee-Vee's picture with that Vivian Crandall's, in the paper."

"I thought I told you not to let anyone at all see those booklets, that they were not to go out of this office!"

"I know, Mr. Macklyn," Rosemary flushed. "But I'd just taken it home for mother to see. Surely mother doesn't matter. And anyway what harm can it do for Vee-Vee to have one of them? The story's about her—"

"You gave Vee-Vee one of those booklets?" Jerry demanded.

"Yes, I did," Rosemary burst into tears. "I don't see what you're so sore about! I was just saving to her 'Vee-Vee.' I said, 'I've just been reading in the papers about Vivian Crandall and I was scared to death it was you. I never was so glad to see anyone in my life,' I said."

"And what did she say?" Jerry urged

answered, his heart knocking against his ribs.

"I am calling in reference to an advertising booklet, published by your firm. I was given your name by your switchboard operator as the advertising manager of the Peach Bloom Company," the low voice went on firmly, without a quiver.

"Good girl! A thoroughbred!" Jerry applauded her silently. Then aloud he said, "That is correct. I am the advertising manager of the Peach Bloom Company. Is there anything I can do for you, Miss—?"

"I am going to make a rather extraordinary request of you, Mr. Macklyn," the cool, musical voice went on. "If you are the author of the booklet, 'The Modern Story of an Ugly Duckling,' I feel sure you will understand without any further explanation on my part. My request is that you meet me as quickly as possible in my apartment. No. 4-B, East 131st street, the Bronx. Apartment No. 4-B. Ring the bell three short rings. Do you understand?"

"Perfectly," Jerry assured her, and a click of the receiver at the other end of the line was his answer.

"Whew!" Jerry sank back in his chair. "Jerry, my boy, you've got the biggest job of your life ahead of you! And I don't even know whether it's a lark to kiss a princess' hand or to smack her on both cheeks, like that Frog general did when he pinned a medal on me in France."

Jerry knew his Bronx. He had been born on Kingston street, on the lower East Side, had fought his way up town with fists and brain, bringing his

mother with him and establishing her in a decent home in the Bronx, which had seemed like Paradise to him after the push-cart district in which he had passed the first 13 years of his active life. His mother was dead now, and Jerry's clearest advertising men, could not buy her any of the luxuries he had promised her when he was a boastful, ambition-ridden little red-headed "fisher."

The address which Vivian Crandall had not the slightest doubt that it was she—had given him was only two blocks from the flat building in which his mother had died six years ago. It was like coming home to get out of the familiar subway station, to pass the same old cigar store and "sea food" restaurant. Eue why was Vivian Crandall living in a neighborhood like this? Decent enough, but peopled by the big families of low-salaried men. The sidewalks were crowded with perambulators pushed by stout, placid-looking women of all ages, ambling from shop to shop, buying provisions for dinner.

In spite of the heat and the noise and the overcrowdedness of it, Jerry loved it all, for it had been home to him for ten years—the happiest ten years of his life. He sniffed the mingled odors of over-ripe fruit, wilting vegetables, fresh-baked bread, and fish—tons of fish, offered for Friday's dinner—and found them sweet to his nostrils.

The building which he sought was a four-story "walk-up" flat house; that is to say there was no elevator and no doorman. Certainly a most amazing

place for a Crandall to live, if she did live here! He scanned the four-row battery of bells and mail boxes, found the "4-B" easily enough, and read the number, as he pressed the bell three times. "Craig" was the one word on the card, neatly lettered in ink. So she was Miss Craig here! Oh! how those assuming an alias instinctively retain their initials. Crandall—Craig.

"Now, if she'd just called herself Callahan, I know I'd like that woman, princess or no princess," Jerry grinned to himself, as the automatic "clicker" in the inside door of the vestibule told him that his ring was being answered.

He bounded up the first flight of stairs. By the time he had reached the

fourth floor he was not bounding, but walking rather slowly, dragging a little at the handrail.

"Too many elevators in your life, Jerry, my boy!" he told himself ruefully. "Maybe the princess came here to reduce."

He pressed the bell on the door of apartment 4-B.

Jerry was right. He is face to face with Vivian Crandall. And Vivian has a plan. Read the next chapter.

"I am going to make a rather extraordinary request of you, Mr. Macklyn," the cool, musical voice went on. "If you are the author of the booklet, 'The Modern Story of an Ugly Duckling,' I feel sure you will understand without any further explanation on my part. My request is that you meet me as quickly as possible in my apartment. No. 4-B, East 131st street, the Bronx. Apartment No. 4-B. Ring the bell three short rings. Do you understand?"

"Perfectly," Jerry assured her, and a click of the receiver at the other end of the line was his answer.

"Whew!" Jerry sank back in his chair. "Jerry, my boy, you've got the biggest job of your life ahead of you! And I don't even know whether it's a lark to kiss a princess' hand or to smack her on both cheeks, like that Frog general did when he pinned a medal on me in France."

Jerry knew his Bronx. He had been born on Kingston street, on the lower East Side, had fought his way up town with fists and brain, bringing his

mother with him and establishing her in a decent home in the Bronx, which had seemed like Paradise to him after the push-cart district in which he had passed the first 13 years of his active life. His mother was dead now, and Jerry's clearest advertising men, could not buy her any of the luxuries he had promised her when he was a boastful, ambition-ridden little red-headed "fisher."

The address which Vivian Crandall had not the slightest doubt that it was she—had given him was only two blocks from the flat building in which his mother had died six years ago. It was like coming home to get out of the familiar subway station, to pass the same old cigar store and "sea food" restaurant. Eue why was Vivian Crandall living in a neighborhood like this? Decent enough, but peopled by the big families of low-salaried men. The sidewalks were crowded with perambulators pushed by stout, placid-looking women of all ages, ambling from shop to shop, buying provisions for dinner.

In spite of the heat and the noise and the overcrowdedness of it, Jerry loved it all, for it had been home to him for ten years—the happiest ten years of his life. He sniffed the mingled odors of over-ripe fruit, wilting vegetables, fresh-baked bread, and fish—tons of fish, offered for Friday's dinner—and found them sweet to his nostrils.

The building which he sought was a four-story "walk-up" flat house; that is to say there was no elevator and no doorman. Certainly a most amazing

place for a Crandall to live, if she did live here! He scanned the four-row battery of bells and mail boxes, found the "4-B" easily enough, and read the number, as he pressed the bell three times. "Craig" was the one word on the card, neatly lettered in ink. So she was Miss Craig here! Oh! how those assuming an alias instinctively retain their initials. Crandall—Craig.

"Now, if she'd just called herself Callahan, I know I'd like that woman, princess or no princess," Jerry grinned to himself, as the automatic "clicker" in the inside door of the vestibule told him that his ring was being answered.

He bounded up the first flight of stairs. By the time he had reached the

fourth floor he was not bounding, but walking rather slowly, dragging a little at the handrail.

"Too many elevators in your life, Jerry, my boy!" he told himself ruefully. "Maybe the princess came here to reduce."

He pressed the bell on the door of apartment 4-B.

answered, his heart knocking against his ribs.

Former Local Man Leads Students "Back To God"

Seattle—Seventy-five hundred students and instructors at the University of Washington are "going back to God and the Bible," under the leadership of Dr. Matthew Lyle Spencer, president of the institution.

Dr. Spencer has taken a pew in the University Temple and has announced his intention to lead pupils and teachers into religion.

But, for churchmen, his announcement carries the disappointing news that he sees no conflict between science and religion; he will encourage the teaching of evolution and other sciences.

Fundamentalists and modernists here are divided in opinion concerning the movement.

The fundamentalists assert that, if Dr. Spencer is sincere, he will abandon

certain scientific courses at the university.

The modernists rather incline to the

president's view and defend his actions. They commend him, too, for defending several professors accused, by churches, of agnostic tendencies.

Some ministers say they find Dr. Spencer's announced Christianity at a variance with his retention of professors with "advanced" theories concerning life.

Dr. Spencer, however, says that the scientific courses in the university will remain unchanged; students can learn evolution all week and attend church on Sunday, quite harmoniously.

The university is the largest in the north west. Dr. Spencer is a former newspaperman and was once head of the school of journalism at Lawrence college, Appleton Wis.

How To Play Bridge

The pointer for today is: **THE MINIMUM STRENGTH WHICH JUSTIFIES TAKING OUT PARTNER'S NO TRUMP WITH A MAJOR SUIT IS KING-QUEEN AND THREE OTHERS.** This week we are considering two-hand, all supposed to be held by North, the bidding having been South (Dealer) one No Trump. West pass. Today's four hands are:

No 1 North should bid two Spades. This is a borderline hand, some experts do not take out unless the Major suit also contains the Ten (K-Q-10-X), or there is a Queen or higher card in one of the other suits. The theory of Major take-outs of partner's No Trump is that it is important to give the No Trump partner an option be-

twen his bid and a Major when the taking-out hand is strong enough to avert danger of catastrophe should the No Trump rebid. I believe that the take-out with a five-card Major headed by King-Queen pays in the long run.

No. 2. Two Hearts. The King of Diamonds more than makes up for the difference between King-Jack in No. 3 and King-Queen in No. 1.

No. 3. Two Spades. The Queen-10 five-card Major is quite a bit under the strength which would justify a take-out were there no side strength in the hand; but the two Kings more than make up the deficiency. It is the type of hand with which it is advisable to give the option. If the No Trump partner permit the Spade to stand, it doubtless will work better than a No Trump; if he rebid the No Trump, the Spades are fully protected and the two side Kings will aid his No Trump.

The four hands which will be considered tomorrow are:

TOWNSEDUCATION BOARD
LOPS \$5,000 FROM
BUDGET FOR YEAR

Approximately \$65,000 Will Be Required to Operate Schools Next Year

Kaukauna—Plans were made at the Monday evening meeting of the board of education for reducing the city school budget by approximately \$5,000. The reduction is in accord with the recent program of economy adopted by the board. The budget for 1928 was set at \$65,000 while the one adopted last year was approximately \$70,000. Details of the budget will be worked out during the next two weeks and a final report will be made at a special meeting of the board to be held on Monday evening, Oct. 17.

J. F. Cavanaugh reported on City School Superintendent's meeting in Madison on Sept. 29 and 30. The meeting was called by John Callahan, state superintendent of schools, for the purpose of explaining the new school code. The superintendent told the school board that recent state legislation embodied the poorer school districts throughout the state to receive more state aid and those receiving too much will be cut. Milwaukee alone will be cut \$30,000. The legislature decided to raise the school tax from 7 mills to 11 mills and will give each district \$250 for each teacher in that district while the county must raise a like sum for each teacher. This is done primarily to help the poorer school districts. Kaukauna will receive about the same under the new legislation. In 1927 the Kaukauna district received \$7,398 from the state and \$7,069 from the county.

Many fine talks were given at the meeting Mr. Cavanaugh said. Most of the speakers advocated dividing the high school students into classes on the basis of social intelligence, mechanical intelligence and book intelligence. It was the opinion of these educators that only the latter should be allowed entrance into the higher institutions of learning as it has been shown time after time that those who made poor marks in high school in book work do no better after reaching college. These speakers claimed it to be only a waste of time and money to send them on.

The board of education accepted the resignation of Miss Elizabeth Stillier, head of the mathematics department of the high school, who left to take a position in the mathematics department of the Carl Schurz high school in Chicago. Miss Stillier taught at the Kaukauna High School for nine years. The salary of Miss Carol Walker, the new mathematics teacher, was set at \$1,850.

The school superintendent reported a total enrollment of 754 children in public schools of the city. This includes 347 in the high school and 447 in the grades. Nicolet has an enrollment of 178 distributed as follows: Kindergarten, 26; first grade, 25; second grade, 21; third grade, 21; fourth grade, 20; fifth grade, 24; sixth grade, 19; whereas Park school has 269 students enrolled as follows: kindergarten, 40; first grade, 25; second grade, 21; third grade, 30; fourth grade, 23; fifth grade, 19; sixth grade, 18; seventh grade, 31; eighth grade, 48. The total enrollment of the Junior High school is 99.

TWO CLUBS ORGANIZED AT
KAUKAUNA HIGH SCHOOL

Kaukauna—Two high school organizations were completed during the general assembly period on Monday morning. One was a girl scout troop and the other the Kaukauna High School Booster club.

Miss Myrtle Sand and Miss Carol Walker will have charge of the girl scout troops. Last year only one troop was organized and Miss Sand had charge. This year an attempt will be made to organize two troops with about twenty-five members to a troop. Application will be made to national headquarters for a charter as soon as the officers of the troops have been elected. Business meetings will be held during the general assembly periods on Monday and Wednesday mornings.

The Booster club started in to work on Monday afternoon making posters for the scientific lecture of Glenn L. Morris to be presented at the high school auditorium on Wednesday evening, Oct. 12. W. T. Sullivan is the faculty representative of the Booster club and the membership is open to both boys and girls. About twenty students joined on Monday.

An attempt will be made to organize a high school literary society during the assembly period on Wednesday. If organization plans are successful Miss Francis Corry will have charge of the group.

M'ANDREWS SHIFTS
TEAM FOR MENASHA

Coach Points Out Mistakes Made by His Team in Game at Oconto

Kaukauna—Coach Mc Andrews called all of his high school football warriors out for a meeting at the high school building Monday evening. Saturday's game at Oconto was gone over thoroughly and the coach pointed out the mistakes the squad had made. Several changes are to be made in the backfield as a result of Saturday's game. Clifford Kemp was out for practice again Monday afternoon a day off of a week following his injury in the Oshkosh game. Kemp no doubt will be sent in at quarter for the Menasha game to be played at the Kaukauna Ball park on Saturday afternoon. This will shift Hishon to one of the half back positions and with Esler will give the coach the advantage of having two experienced players in the backfield.

Saturday's game with Menasha will be the second conference game for Kaukauna and the Orange and Black must win this game if the squad hopes to finish near the top of the Northeastern Wisconsin Interscholastic conference. The kickoff is scheduled for 2 o'clock.

Principal Olin G. Dryer announced Monday that G. L. Kautz, of Manitowish, will referee the game and M. Basing of Appleton will be the umpire. Both are former Lawrence college stars. G. C. Lovejoy, principal of Wrightstown High school, will be the head linesman.

The high school will hold a pep meeting for the game with the Wood-entwain squad during the general assembly period on Wednesday. A ticket selling campaign will be started during that period.

Social Items

Kaukauna—Mrs. W. H. Copp entertained a cup of friends and a quilting frame at her home Friday afternoon. After finishing the quilting, cards were played and prizes were won by Mrs. Gus Pahl, Mrs. M. Richardson and Mrs. Ems of Iron River, Mich.

The Ladies Aid society of First Congregational church will hold a luncheon shower at the home of Mrs. W. H. Copp on Wednesday afternoon, Oct. 12. Ladies and friends of the church are invited. Saturday the women will hold a rummage sale. Mrs. G. Fulton and Mrs. E. J. Nicholson are in charge of the collection.

A dance will be given by the Young People's Society of Holy Cross Catholic church at the Eagle's hall on Tuesday evening. Music will be furnished by a local orchestra.

RELIEF CORPS TO HOLD
MEETING IN KAUKAUNA

Kaukauna—The Ninth district convention of the Women's Relief Corps will be held in this city on Tuesday, Oct. 11. Mrs. Roy Nelson of this city is president of the district. Meetings will be held in the auditorium during the morning and afternoon while the luncheons will be served in the Legion building.

RAZE WAREHOUSE USED
BY FARGO FURNITURE CO.

Kaukauna—Workmen started tearing down the old warehouse of the Fargo Furniture store on Wisconsin ave. Monday morning. This was one of the oldest buildings in the north side business section. The furniture from this warehouse has been removed to the old Congress hotel building where it will remain until the old building is replaced by a modern furniture store. Mr. Aebischer pointed out that the constitution was in a large measure a compromise between the small and the large states, and that the makers of the constitution had done their work so well that in the 140 years since its adoption, in reality only none amendments had been added, the first ten having been added before 1790.

Mr. and Mrs. George Mortimer visited relatives in Waupaca during the past week.

District Attorney Frederick Aebischer spoke before the high school assembly Monday afternoon on the constitution of the United States. Mr. Aebischer pointed out that the constitution was in a large measure a compromise between the small and the large states, and that the makers of the constitution had done their work so well that in the 140 years since its adoption, in reality only none amendments had been added, the first ten having been added before 1790.

WORKERS TOLD OF TASK AHEAD IN WOMANS CLUB DRIVE

Work of Several Departments Is Explained to Campaign Solicitors

"There's a big, big job before us," the first line of a pep song written for Appleton Womens club, struck the keynote of the supper meeting Monday evening at the club rooms.

Mrs. L. J. Marshall, president of the club, sketched the big job that confronts the organization both in its membership and finance campaigns.

To give the members an idea of what the club stands for and what it is trying to do, Mrs. Marshall outlined the several departments and their respective work. The art department under Mrs. Mark Catlin will study the place of art in life, art for Appleton, and classes in landscape and still life.

A literature class will be offered if enough women enroll. Those who would be interested in such a class should sign up at the club. Both reading and study will be considered in the course.

The music department with Mrs. Earl Baker as chairman will hold group meetings each month with programs and a social hour.

WILL HOLD CLINICS

A great deal of time will be devoted to health work this year at the club. Mrs. William Nemacheck will head the department. Group meetings will be held each month with speakers and a study will be made of Appleton's health problems. Arrangements have been made for baby clinics, chest clinics, and special clinics for high school students. The annual Christmas seal sale will be included in this department's field of activity.

County extension work will be directed by Mrs. John Schoettler. Monthly meetings of this department will be held. Any class desired will be offered if a sufficient number of enrollments are secured.

The recreation department comprises a large share of the activities of Appleton Womens club. Girl Scout work is carried on without a special campaign. A summer camp at Onaway Island, Waupaca, is conducted under the direction of Miss Agnes Vanneman, recreational director.

For the older girls and women the club offers athletics, including gymnasium, basketball, bowling, swimming, tennis, and hiking; dramatics, such as plays, costume making, and scenery making; social activities, such as parties, dances, Sunday cosies, and Happy Hut cottage parties; classes in ukulele, under Miss Esther Roring, tapestry under Miss Estelle Dunning, bridge under Mrs. Henry Meyer, and lingerie making under Mrs. Bert Harwood.

GIVE DEMONSTRATION

The work of the Appleton Girl Scouts was shown by demonstrations of tying square knots, clove hitch, sheep shank, and other practical stunts by girl scouts themselves.

Fine Murmurings, a camp publication, was read by Miss Jane Shannon. It included a report of camp life for two weeks starting June 21.

Miss Evelyn Meyer gave a report of the basketball season of 1926-27 and a group of girls who took courses in swimming, diving, and life saving as

NEW EXECUTIVE

Milo G. Clark, new executive of the Valley Council of Boy Scouts, has arrived in Appleton and is preparing the fall program of scouting.

OFFER \$100 REWARD FOR CAPTURE OF CONVICT

A reward of \$100 is offered for the capture of Marvin Kober, 23, who escaped from the United States Industrial reformatory at Chillicothe, Ohio, last week, according to information received at the Appleton police department Monday morning. Kober was convicted and sent to the reformatory for five years for transporting a stolen automobile from one state to another. He is known to have communicated with friends at Oshkosh, Mineral Point and Madison. He is 23 years of age, weighs 174 pounds and is five feet, ten and one half inches tall. He has dark hair, medium complexion and build and has a mole above the left corner of his mouth.

offered by the club demonstrated the crawl, the side, back, and breast strokes.

The thirty-first annual convention of the Wisconsin Federation of Women's clubs will be held Oct. 11, 12 and 13 at Milwaukee. Appleton Womens club has about 20 tickets for any members who might wish to attend. Lodging and breakfast will be furnished all delegates.

An especially fine program for the convention has been announced. The address Tuesday afternoon will be given by Mrs. Maggie Barrie. Mrs. Alfred Tyler, G. F. W. C. chairman, Dr. Frank Eohn, and Mrs. Rufus Davies, chairman on international relations, will be among the principal speakers.

A second supper will be given Tuesday evening as a get-together meeting of all the solicitors in both membership and finance campaigns, and all other persons interested. A discussion will take place concerning the experiences of the solicitors during the day. It is always an inspiration to meet with persons who do the same thing, according to Mrs. S. C. Shannon, general secretary of the club.

SCOUT EXECUTIVE STARTS HIS WORK

Clark Gets Acquainted With Scout Masters and Plans Fall Program

Milo G. Clark, new executive of the valley council of the Boy scouts has taken over active charge of the organization, is laying plans to become acquainted with the scout masters. Mr. Clark was in Appleton in June and made the acquaintance of several members of the scout council, but for the time being is looking over the situation with the purpose of starting fall activities immediately.

The new scout executive was assistant scout director for the past six years in Detroit and during that period gained considerable success in the work. He recently completed a scout executive course at a boy scout school at Briercliff Manor, N. Y. Mr. Clark served with the marine corps during the World war.

Persons interested in the scout movement in Appleton and the valley have spent the summer months laying out a permanent financial foundation for the work and have raised practically all the money necessary to carry on the project for the next six months.

MENOMINEE INDIANS ON TEACHER PROGRAM

Five Menominee Indians from Keshona, some in native garb, will present a program at the Friday evening meeting of the annual convention of the Northwestern Wisconsin Teachers association at Oshkosh. The program will be under the auspices of the Wisconsin Magazine, according to C. C. Nelson, president of the Retail Publishers, Inc.

The Indians, many of whom were former Carlisle students, will demonstrate what education does for the redmen. The two extremes, the highly cultured and educated Indian and the pagan of the old days, will be presented.

OFFER \$1,000 REWARD FOR TWO BOND JUMPERS

A reward of \$1,000 is offered for the capture of Ernest Brown, alias Harry E. Harris alias Sam Harris, and his wife, Pearl Brown, who jumped their bond at Nashville, Tenn. The couple was to be tried for violation of the Dyer act, or transporting stolen cars from one state to another. They disappeared from Nashville Sept. 28, according to information received by the Appleton police on Tuesday.

Brown is 31 years of age, weighs 170 pounds and is five feet six and seven-eighths inches tall and has dark brown hair. His wife is 24 years of age, five feet four inches tall and weighs about 140 pounds. She has light complexion, blonde hair and very blue eyes.

WISCONSIN WEATHER

Increasing cloudiness tonight, followed by showers Wednesday night; slightly warmer Wednesday in east and south portion.

WEATHER CONDITIONS

The low pressure area noted yesterday over the central valleys has moved to the Atlantic coast, attended by rain over most of the eastern half of the country. Higher pressure is now reported over the central and southern states, with fair weather, and with cool temperatures over the north. Low pressure is advancing eastward across the northern Rockies this morning, with increasing cloudiness in this section, followed by showers as it continues to advance eastward.

STAGE And SCREEN

EVERY AMERICAN SHOULD SEE "THE ROUGH RIDERS"

Few motion pictures have aroused the sustained interest that followed "The Rough Riders" from the time it was first announced that it would be filmed to the date of its release. From all reports on initial showing this Paramount production at Fischers Appleton Theatre Tuesday and Wednesday is deserving of the widespread discussion that has attended it.

Jesse L. Lasky, first vice president of Paramount Famous Lasky Corporation, and B. P. Schulberg, associate producer, who had much at stake on the standard which the picture would assume when finished, have called it "a production room sensation" meaning that the critical test of its first run in completed form caused tremendous enthusiasm among studio executives, directors and principal players whose success depends upon the quality of their productions.

Frank Hopper has portrayed the real Roosevelt, critics agree. A love story without compare has for its central characters, Mary Astor, Charles Farrell and Charles Emmett Mack. The strongest support naturally would be expected from such notable screen actors as Noah Beery, George Bancroft and Fred Kohler.

"ONE WOMAN TO ANOTHER"

Florence Vidor outdoes herself as a creator of fashions in "One Woman to Another" her latest Paramount production. She wears thirty-two new and distinctive creations, many of which were made from her own instruction. To be shown at Fischers Appleton Theatre Thursday and Friday.

LIONS' CLUB PROGRAM OUTLINED BY PUTNAM

A program whereby Lions clubs would enter into civic affairs and in that manner do more for the state at large was outlined by Giles H. Putnam, New London, district governor of Lions clubs at the regular weekly luncheon of the local organization Monday noon at the Conway hotel.

The governor used as an example of his aims the tax situation in Wisconsin. He said that people of the state are taxed higher than the residents of any other state in the union and that it was his opinion that if members of the Lions clubs throughout the state were to get together and show interest in the situation, the clubs singly and collectively might aid in securing a tax reduction. Mr. Putnam also made a plea for a better system of game preservation and a more constructive conservation policy in Wisconsin.

of drunkenness. He was ordered to pay the costs, amounting to \$4.20, in the action. Borchart was arrested about 8 o'clock Monday night by George T. Prim, chief of police, and Officer Carl Radtke. Borchart was in a stupor and had fallen in the gutter at the corner of E. College-ave and Green Bay-st.

KELLER RETIRES AS TREASURER OF C. O. F.

Appleton Man Checks Out of Office He Held for Eighteen Years

Gustave Keller, high treasurer of the Catholic Order of Foresters for 18 years, will be checked out of office on Tuesday when his successor, William Meuser of Dubuque, Iowa, takes over the work. Mr. Meuser, Thomas F. McDonald, high secretary of the order, and Robert Mallaby, auditor, both of Chicago, were here Tuesday to make the transfer.

Mr. Keller's term expired on Sept. 30 but he remained in office for a few days while arrangements were made for the transfer. He was elected in August, 1909, in Montreal, Canada, and was re-elected at each successive convention until this year.

During the 18-year period receipts handled by Mr. Keller's office totalled \$55,757,173.46. When he assumed office the reserve aggregated \$2,000,000 and it has grown to \$21,000,000.

Death claims during the period aggregated \$29,668,690.77; cash settlements of \$947,486.91 were made, and payments totalling \$201,678.00 were made for total disabilities.

MANY COUNTY FARMERS WILL ATTEND CONGRESS

Many Outagamie-co farmers are expected to attend the Wisconsin farm congress at Madison, Oct. 13 and 14, according to R. A. Amundson, county agricultural agent, who also will attend the gathering. The meeting has been called by Governor Fred R. Zimmerman, who will be one of the speakers and Walter A. Duffy, commissioner of agriculture, who also will give an address. A special round trip price of one fare and a half is offered by the railroad company to farmers who will make the trip.

JOHNSTON LOST TO ORANGE GRIDDERS FOR MARINETTE GAME

Veteran Fullback Told To Give Injured Side At Least One Week Of Rest

Three Other Vets Out for Few Days With Injuries Received in Fondy Battle

It would have taken the sharpest sort of knife in Appleton to have cut through the gloom that enshrouded Spencer's field, moulding grounds of the 1927 Appleton high school football team, Monday evening, so heavy was the cloud that hung over it. For when the squad reported for the first practice of the week it was discovered that the Fond du Lac game Saturday was not so much of a victory as was thought. Four regular players, three linemen and an all-conference fullback, were at the field but not in suits, all suffering from injuries received Saturday.

The greatest gloom of the afternoon was the announcement that the fullback position was under attack by orders not to play Saturday against Marinette. 1926 co-champion, and one of the strongest contenders this year, a team against which his services will be especially needed. Further examination of Johnston's injury revealed that he had twisted several muscles in his side. He will be out of practice all this week, but will make a trip to Marinette. He may be inserted in the game for a few seconds if Appleton is forced to punt in its own territory or plunge will mean the winning touchdown but the doctor's orders say not more than a few minutes of play at the most if he is to be saved for the future hard conference games, East and West Green Bay and Oshkosh.

The other regulars out were Schaefer, who hurt his bad knee again Saturday. Rankin, center, with a torn ligament and Kruse, tackle, with an injured side. All of these men are expected to be in shape for Saturday with a few days' idleness.

TRY PASS DEFENSE

It was well that Coach Shields has good reserve material as he had to call on it Monday with his vets out. Kranhold was shifted from guard to center and Brettrick, a soph, was at the guard. Dresing played Schaefer's end. Popo was shifted to "fullback from half and Bob Kuntz, a soph, took over the half. The team surmised that the seconds carrying the ball most of the time and giving the varsity plenty of practice against forward passes. They showed themselves especially weak in that department Saturday and Marinette is known for its class passing attacks, which beat most of its foes. The starting lineup is unknown as yet for the Marinette game.

PLAY BALL! SERIES STARTS WEDNESDAY ON P-C PLAYOGRAPH

It won't be long now! Ladies and gentlemen, Batteries for New York, Hoyt and Collins; for Pittsburgh, Kremer and Smith! That's the cry that's likely to ring out Wednesday afternoon when the Pittsburgh Pirates, National league champions, and the New York Yankees, American circuit flag winners, clash in the opening game of the 1927 world series, the big diamond classic of the year. Appleton ball fans will find both New York and Pittsburgh a trifle far to go to see the series, yet they need not be disappointed.

Play by play as it happens in the east but a few seconds after the series will be depicted on the Appleton Post-Crescent playograph on the west side of the Y. M. C. A. building. The association again has granted the Post-Crescent the use of its tennis courts for the "bleachers" and plans have been completed for a great crowd on the courts. The playograph was erected by workmen Tuesday and men who have handled the job for the last few years again will entertain local ball fans with exact duplicates of the plays that occur in Pittsburgh and New York. . . . The games in the east will start at 1:30, which means 12:30 here. The Sunday game starts at 1 o'clock central time. The second best thrill to seeing the actual series is to see it on a complete playograph, such as is operated by the Post-Crescent.

JESS BARNES FACES BUFFALO IN SERIES

Toledo—(AP)—Toledo's American Association champions had Jess Barnes to throw against Buffalo, International League champions, in the fourth game of the little world series at Swayne field Tuesday. Barnes muffled Bison bats to lead Toledo to one of two victories already scored against the Buffalo team.

With the championship series standing two to one in their favor, the home club must win three more games to take the series.

BIG TEN DOPE

Ann Arbor—Coach Tad Weiman began a search Tuesday for speed in Michigan's place in an easy workout. The team was fast enough on the first play or two, he said but lost yards by slowing up in the later smashes.

Bloomington, Ind.—Coach Page began preparations for Chicago next Saturday with strong hopes of victory over the Maroons. The Indiana squad was given a light workout and a rest on Chicago plays.

Urbana—Coach Bob Zupke Tuesday started untangling some of the kinks that he jotted down in the Illinois-Bradley game Saturday together with some new plays that he expects to use in some of the Major Big Ten battles later in the season.

LaFayette, Ind.—Search for a half back to take the place of the injured Purdue captain, "Cotton" Wilcox, occupied the attention of the Boilermaker coaches Tuesday. Guthrie of the junior reserves and Harry Harmonson, second string quarterback, were given a chance to fill Cotton's place at left half.

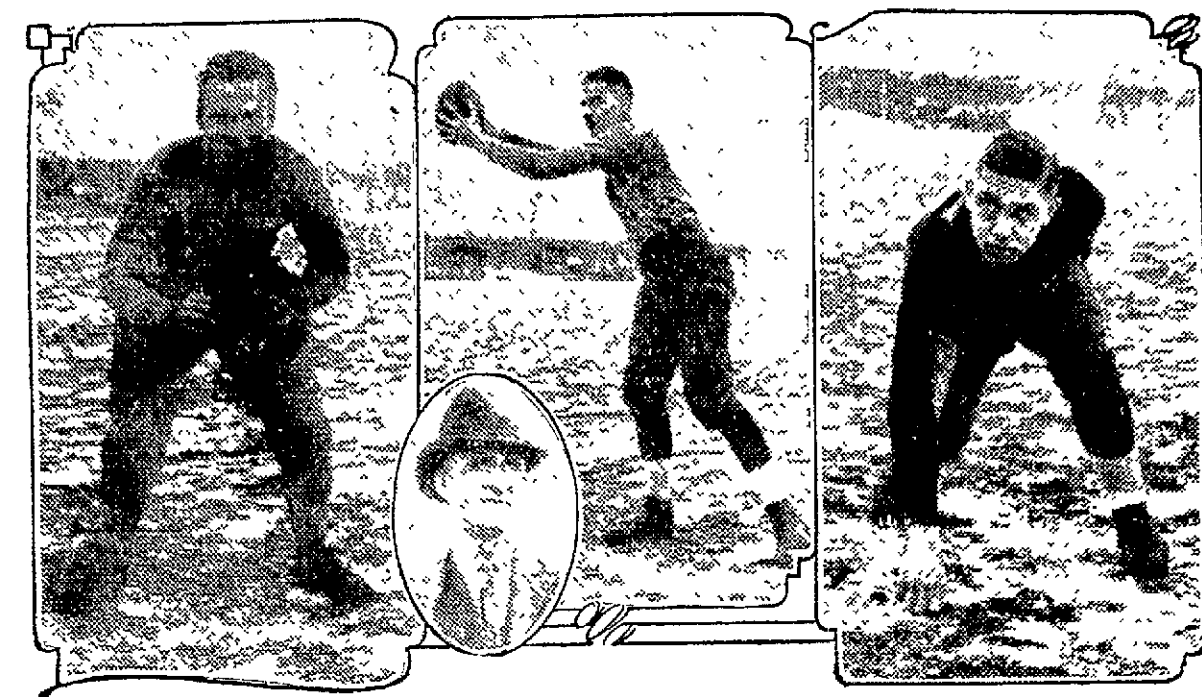

Cards, Pepped By Cornell Triumph, Work For Kansas

Madison—(AP)—The Badger football camp was all astir Tuesday as Glenn Thistlethwaite and his staff pointed the Cardinal squad for the coming game at Kansas City. Only a few minor injuries resulted from the tussle with Coach Barker's Cornell outfit Saturday, partially because of a constant shuffling of men in the Wisconsin lineup.

The 31 to 6 victory over the little Iowa College was at least satisfying to the horde of Badger fans who have been a bit pessimistic concerning the season's prospects. Not that a lopsided win over a minor college is any true criterion of the power of a Big Ten eleven, but Thistlethwaite's boys played football—straight football—and showed their points so pleasing to the spectators, blocking and tackling.

As an indication that the Cardinal did not have a good running attack, no one was made from passes and long runs forward made were three in all. The Badger backs during the game were pepped by Cornell's six of ten of the game's touchdowns while these were completed, an indication of the team's power. The Wisconsin camp can pass if necessary, and Barker said the guard and the backs had the fight and pep.

LEADERS OF BLUE GRID SQUAD

Introducing the coaching brains and the playing strength of the 1927 Lawrence college grid machine, a Mid West and Wisconsin-Illinois conference contestant, and they know their football!

The coaching brains are all beneath the slouch hat worn by the gentlemen in the inset. He is the veteran, Mark S. Catlin, a former Chicago university star, playing man of the famous Walter Eckersall and once chosen as an end by Walter Camp for his all-American eleven. In eight years of coaching, at Lawrence college, he has developed five state championship eleven. Catlin is the man who first introduced the no-padding and no-head gear idea in Mid West grid circles, and was one of the first coaches to favor the no-scouting agreement.

Former Pupils Oppose Mentors In Grid Games

Chicago—(AP)—Three of the middle-west's football coaches of next Saturday will bring together coaches with fond memories of their player days, who now are exerting every effort to defeat their former comrades.

Pat Page, who was one of the shining lights on coach Stagg's Chicago Maroons years ago will make his first trip to Stagg field Saturday in the role of a hostile opponent when he leads the Indiana university eleven against his former mentor's squad.

Patsy Clark, now head coach at Butler, takes his squad over to the old alma mater at Illinois Saturday for another try at Zupke. Years ago while Zupke was scouting Iowa in the Yale bowl the Butler team surprised and defeated Illinois.

At Detroit next Saturday, Charley Dorais and Knute Rockne, who formed a great forward pass combination for Notre Dame years ago, Dorais at quarter and Rockne at end, will test out their pupils passing ability.

The Wisconsin practice Monday was held entirely indoors due to the weather. Blocking practice for the line-men was stressed mostly and some new plays for the deception of Kansas were run through in signal practice. McKaskle, a regular guard was the only casualty of Saturday and he is expected back shortly.

The Iowa jam is being developed again for Ohio State next Saturday. The Oklahoma Aggies, champions of the Missouri Valley conference last year, are already within a few hours ride of their Saturday battle with Minnesota. They are completing their training at the Carleton college gridiron, at Northfield, Minn.

APPLETON YOUTH OUT FOR ST. JOHN ELEVEN

Delafield—(AP)—Handicapped by a lack of experienced material but with a big squad of 40 and Coach Ralph Fletcher is driving his football squad through some intensive workouts for the staff early before this fall. Among the outstanding candidates for regular berths are Alwood, Faust, Riley, Trude, Schroeder, J. Carson, Kennedy, Schmidt, Baker, Devanston, Schmitt, Carson, R. Carson, Morse, Search, Rossmessel, of Appleton, Wehman, Benton, Grimes, Grahney, Tricker, Hambar, Fry and Fairbault.

JOEY CLEIN SHADES BONILLAS IN EIGHT

Madison—(AP)—Joe Clein, Madison, took the out of three falls in a wrestling match with Ernest Herndon of Michigan, 155, Saturday night at Oconto Falls. The match was sponsored by the Oconto American Legion.

WORLD'S SERIES DOPE

Contenders—New York Yankees, champions of the American League, and the Pittsburgh Pirates, champions of the National League. Schedule—First two games at Forbes Field, Pittsburgh Wednesday and Thursday, Oct. 3 and 4; next three at Yankee stadium, New York, Oct. 7, 8 and 9; last two at Forbes field Oct. 10 and 11. All games to be played at 1:30 p. m. Eastern standard time, except on Sunday at New York, which starts at 2:01 p. m. Eastern time. In event of postponement because of weather, teams remain in either city to play allotted games.

Chicago—(AP)—Bob Ruth, Lawrence, won from Cecil Taylor, Erie, Pa., (AP) 4-3 in a 10-inning contest.

MORE NEW PLAYERS REPORT FOR BLUES

Eleven Men Out in Suits at Whiting Field for First Time Monday

Lawrence college football hopes, raised by the feat in holding Marquette's strong team to a 9-0 triumph Saturday and at times outplaying the Milwaukee gridders, were given another boost Monday afternoon when an entire new squad reported for practice, all men who had not been out before this season. This gives Coach Mark Catlin his third full squad to work on and puts about 40 men in suits as compared with the 20 that started the season.

The varsity came out of the Marquette game in fine shape and showed worlds of fight in the practice Monday, encouraged by Saturday's showing. No scumage was on the cards but more than plenty of it will be the schedule for Tuesday afternoon. Most of Monday's practice was spent in running through new plays. The Blue weak point Saturday was its poor offense, though the defense was good, and now the Coaches Catlin and Christoph will spend most of the time developing an offense at any cost.

NEED BLOCKING

Bartell played as good a game as at any time in his career, but his backfield mates, especially Hunter and Humphrey, fell down on the important part of the game, blocking. The backs were unable to get started because of poor blocking by rearward mates and each had to go it all the way "on his own." Several backfield candidates will try the varsity in Tuesday scrimmage and will step in quickly when a starting player lags until the coaches can mould an impressive rear well.

Philadelphia—(AP)—Matt Adgie, Philadelphia, won from King Solomon, Panama (10).

Rival Teams Await Gong For Opening Of Worlds' Classic As Field Dries

Kremer and Hoyt, Veterans of Past Series, Slated to Start First Battle

Pittsburg, Pa.—(AP)—Pirates and Yankees camped Tuesday on the outskirts of the battlefield and waited for a coy sun to do its duty in drying out Forbes field for the first game of the worlds' series Wednesday. Pirates manager Hank Monday brought rest to the players, needed by the Pirates but not by the Yankees. The rain came when the Yankees had had only a few minutes batting practice and kept the Pirates off the field altogether.

With a day to pass before the first act of the annual classic can be staged, Pittsburg was practically in the hands of the experts. Old inhabitants said the stronghold of the bold Buccaneers had never before been subjected to such intensified expecting.

Every Yankee winter has predicted victory for the American League while the Pirates seem to a man pick the National League entry.

The fans seem to have arrived at the conclusion that this is the question mark at the end of the world series sentence.

"Can the pitching of the Pirates still the mighty bats of the Yankees?" There were many questions that only Wednesday afternoon can answer and then only in part. The duel of managerial minds was certain to be interesting as the two "mighty atoms," Donie Dush and Miller Huggins cross wits.

Leading the flying wedge of the Yankees, Babe Ruth and Lou Gehrig, who have 107 American league home runs between them were the objects of sharp scrutiny by Pirate pitchers. The Corsairs, deep thinkers, made no secret of the fact that big fellows will not get good balls to hit.

The Pirates batting ace, Paul Waner and his brother, Lloyd made up in speed what they lack in weight. The Yankees were reported for the opening engagement in the pink of condition. The general health of the Pirates also was good although Joe Harris has been a bit indisposed.

The rival managers were expected to put their best pitching best forward, Waite Hoyt for New York and Ray Kremer for Pittsburgh. Both are right-handers and neither needs any introduction to the worlds series.

Wiley Moore, the best advertisement in baseball for the long distance telephone since he was bought from the Greenville club of the "Sally" league through that medium, is slated to share the main Yankee pitching assignments with Hoyt.

In spite of the all day drizzle, Monday, breaking at times into a regular rain, the weather man sticks to his story that Wednesday and Thursday will be fair.

FARRELL, ARMOUR, HAVE FINE MARKS FOR 1927 SEASON

Golfers Who Play Here Oct. 12 Have Taken 12 Major Titles Between Them

Johnny Farrell and Tommy Armour, crack professional golfers who will play an exhibition match over the Butte des Moris Country club course on Oct. 12, are ranked as the two leading golfers of the nation for the year and with Bobby Cruickshank form a trio that have copped 16 tournaments in the past season, according to golf records. Farrell leads all medalists of the country with eight open golf championships during the year and Armour and Cruickshank each have won four. Tommy's include the national open title, the biggest event in American golf circles.

BEST-DRESSED GOLFER

Armour, beside taking the American open event, has taken the Canadian open this year. Yet Farrell's eight titles, irrespective of their relative quality give him top rank among pros as the medal scorer. With those eight titles he also took the crown of best-dressed golfer, outshining the fashionable Walter Hagen in a special contest held in conjunction with national open meet at Oakmont. For this he got a \$1,000 prize, or the equivalent of two open championships. He is expected to demonstrate this fashion title when he takes the links here next week.

Off the links the pair are the greatest of pals, though they are deadly enemies on the course. Their great friendship led to the arrangement of the exhibition tour, which strikes only Madison and Milwaukee in Wisconsin beside Appleton.

Armour won the national open in a playoff with Lighthorse Harry Cooper, after the men had tied with 301. The playoff score was 76 to 79 for Armour. Three titles this year were decided at a 296 mark and Farrell took two. He won the Metropolitan open with the Philadelphia open with the mark and Cruickshank took the Hot Springs open. Farrell won the Pennsylvania open with a 232.

The two keenest scoring feats of the season again saw Farrell starring. The first went to Gene Sarazen when he shot a 277 in the Miami Beach open and the second was Farrell's with a 279 in the Shawnee meet. Here's a few of Farrell's open triumphs:

Eastern, 257 score; Shawnee, 279; Massachusetts, 255; Chicago, 255; Metropolitan, 256; Philadelphia, 296; Pennsylvania, 227.

Armour's titles include: Canadian, 288; El Paso, 288; National, 301.

Toronto—Larry Gains, Toronto, won from Joe Lohman, Toledo, (10).

sored by the Oconto American Legion. Herndon won the first fall with a cradle hold in 30 minutes and lost the second in 27 minutes and 10 seconds with a hammerlock and the third in 3 minutes and 20 seconds with a hammerlock.

In the preliminary Al Laiser, Oconto, 150, took a 20-minute time limit one-fall match from George Snel, the "Kawo Kid," of Casco, 153, Laiser took the fall with a half-nelson in 4 minutes 10 seconds.

DISTRICT CAGING TOURNAMENTS IN MARCH

W.I.A.A. Picks March 14-17
for Meets; Valley Schools
Out

District high school basketball tournaments will be held March 14-17, according to an announcement by J. P. E. Neveerman, secretary of the Wisconsin Interscholastic Athletic association.

The district meets, according to Mr. Neveerman, will be held in 16 centers as before and supplementary tournaments will be held March 22 and 23 with the state tournament at Madison March 28 to 31.

Appleton high school followers, however, are more vitally interested in the Fox River Valley conference race than in the district tournament, for Valley teams, including the local institution voted to remain out of district and state tournaments a year ago last summer.

Teams in the Fox River Valley conference went through a schedule last winter that carried through the date set for the district tournament. The conference is composed of some of the best teams in the state.

In addition to announcing the dates for the basketball tournament, Mr. Neveerman told of the annual Milwaukee Normal cross country run to be held in Milwaukee in November. A state high school skating meet will be held at Madison some time between Jan. 14 and 21. The state swimming meet will be held at Madison May 2 and the state tennis meet May 26 and 27. The qualifying round of the golf tournament will be held in the various centers on June 2, and the finals will take place at South Milwaukee June 9.

TEX SAVES DEMPSEY FOR SUMMER BATTLES

New York—(P)—Tex Rickard and Jack Dempsey have emerged from a business huddle with the announcement that the former heavyweight champion will not do any fighting for Rickard this winter.

Rickard said Tuesday that Dempsey is too good an attraction to be wasted on indoor bouts, where attendance is restricted by limited seating capacity, and that he had just about reconsidered altogether his plan to send the Manassa Mauler against a half dozen or so aspirants in the heavyweight division.

HIGH SCHOOL MATES ON RIVAL GRID TEAMS

Milwaukee—(P)—When Marquette and the Army do battle on the plains at West Point next Saturday afternoon, two home town boys will meet on the gridiron for the first time since high school days.

Both Captain Joe Leary, the Marquette fullback, and Lyle Seeman, Army guard, were in high school together at Janesville, and both played high school football there. Seeman finished high school a year before Leary, but they had played together for two years.

Born, Army's all-American end, is from Racine.

STATE NURSES TO MEET AT MADISON OCT. 10-12

Madison—(P)—Wisconsin nurses will gather in Milwaukee Oct. 10 to 12 for the annual meeting of the state nurses association, the state of health has announced. Convention session will be held in a hotel there. Monday afternoon, Oct. 10, will be devoted to the private duty section, with Miss Jeannette Geister, director of the American Nurses' association, New York, as the principal speaker. Tuesday morning will be given over to the business of the state nurses association, and to the Red Cross nursing activities. On the latter part of the program the principal speaker will be Miss Clara D. Noyes, director of Red Cross Nursing service, Washington, D. C.

Tuesday afternoon will be given to the Wisconsin Association for Public Health Nursing. Miss Jane Allen, director of the National Organization for Public Health Nursing, will be the chief speaker.

Wednesday, Oct. 12, is set aside for the State League of Nursing Education, and the principal speaker will be Miss Annie Goodrich, dean of the Yale School Nursing, New Haven, Conn.

The expression "not worth a rap" owes its origin to a counterfeit coin known as a "ray" which was circulated in Ireland as a halfpenny early in the eighteenth century.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You
Darken Gray, Faded Hair
With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Witch's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for only 25 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Witch's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears, after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

120 PERSONS GIVEN EXAMINATIONS AT FREE CHEST CLINIC

More Than Score Turned Away by Doctors at New London Last Week

Special to Post-Crescent.
New London—Approximately 120 persons were given examinations at the free chest clinic held at the city hall on Friday and Saturday and more than twenty were turned away, because of the lateness of the hour at which they came. It was found necessary to advise treatment of various kinds in so many cases. It is expected that another clinic of the same kind will be held here in the spring of 1928. This will depend, however, upon whether or not enough Christmas seals will be sold during the coming holiday season.

The cost of the clinic is based upon the number of persons examined. Each examination is said to cost the New London Civic Improvement society about 85 cents. There are a number of other expenses connected with the clinic, such as advertising and the preparation of a suitable place to receive the clinic, as well as the materials used by the doctors and attendants.

Services of the local women who were present for the two day session were contributed. They were: Mrs. E. C. Jost, Mrs. Lawrence Deacy, Mrs. Charles Remick, Mrs. R. J. Small, Mrs. Oscar Nenschoff, Mrs. W. M. Beddie, Miss Loretta Rice, Mrs. Hazel Barton and Miss Marie Klein. The only ones to receive pay for services rendered were the three examining doctors and Miss Dorothy Durbin, Milwaukee.

Mr. and Mrs. Pego Dexter were pleasantly surprised at their home Sunday evening in honor of their seventh wedding anniversary. Five hundred furnished the evening's entertainment, after which lunch was served. Prizes at cards were awarded to Mrs. Edward Roloff and Louis Rush, who received high scores, and Mrs. Austin Dexter and Charles Plamer, second high. Guests included Messrs. and Mesdames James Boddy, Austin Dexter, Charles Palmer, Louis Rush, Leo Hys, Edward Steingraber, Edward Roloff, and August Braatz.

Mr. and Mrs. John Zitzke were host and hostess to 35 friends at their home Sunday evening in celebration of the latter's birthday anniversary. Schafkopf and smear were played during the evening. Mrs. Albert Stern and Daniel Brown received prizes for winning scores in schafkopf and Mrs. Otto Foster in smear.

519 BOOKS DRAWN FROM LIBRARY DURING WEEK

Special to Post-Crescent.
New London—The report of the New London Public Library shows a total of 519 books issued during the week ending Sept. 30. Of the issue 223 were adult books, including 62 non-fiction and 231 fiction. There were 51 children's non-fiction, and 174 fiction, making a total of 225. Two German books were drawn. Eighteen reference questions were answered.

The Tri-C club of the Congregational church held the first meeting of the fall season in the church parlors Sunday evening. General discussion of the year's business featured the evening's program and was led by the Rev. Henry P. Freeling. Election of officers will take place at the meeting next Sunday and appointment of committees will be made.

"KEEP UP QUALITY OF BADGER CHEESE," IS EXPERT'S PLEA

LOWER LEVEL MEANS LOSS OF PRESTIGE, MAKERS ARE WARNED

Decreased Fat Content May Cause Wisconsin to Lose Coveted Position

Madison—(P)—The state department of markets Saturday warned cheesemakers of Wisconsin that if they are to keep up the market for the now famous "Wisconsin Full Cream Cheese," that they must keep it truly full cream and not standardize to a low level of butterfat content. Through L. W. Moore, cheese specialist of the department, the markets office said that "we are allowing ourselves to slip when we do not concern ourselves about providing a statute the meaning of which cannot be construed in a way that will permit making cheese of anything but whole milk." Mr. Moore's statement said: "This is an age of standardization in all lines. It is even extended to the cheese industry. According to a court decision, standardization applies to Swiss cheese and according to a recent opinion of the attorney general it is considered lawful to remove a small amount of fat from milk used in the manufacture of brick and American cheese so long as the finished product contains as much as 50 per cent of butterfat in the dry substance."

"I am not sure that the partial skimming of milk for the manufacture of Swiss cheese is beneficial to it as a food."

DETAILS METHODS
The statement then took up in detail the methods used in Swiss cheese making, discussed the deduction of butterfat from the base ingredient and continued:

"Because of the conditions and practices that we have in the manufacture of Swiss cheese which is responsible for us to allow the whole cheese industry of Wisconsin to be jeopardized."

"I am not sure that there was ever a lot of whole milk produced in the state of Wisconsin for the manufacture of Swiss cheese which was so rich, that removing any part of the butterfat would not impair the resultant product."

"It is a very positive fact that the removal of any amount of fat from milk for the manufacture of American Cheddar cheese reduces its quality and palatability."

DISTRESS EXPERIENCE
"In the neighborhood of 30 years ago we had a bitter experience. As a result of the manufacture of skim and filled cheese, there is a feeling in a certain state that we robbed her unfairly of her prestige as a cheese state, by building our reputation on full cream cheese. The fact that we have now skimmed cheese and manufactured the real full cream cheese has put us in the position that we hold as a cheese producing state."

"Now are we willing to give up this position, as the leading cheese producing state not only from the standpoint of tonnage, but for quality?"

"At the earliest possible moment Wisconsin should come to the rescue of the cheese industry and enact laws which would cause cheese to be made in a manner so that it would be truthfully branded Wisconsin Full Cream cheese."

"I doubt very much if one-half of one per cent of our American cheese is made from milk, where the operator has attempted to standardize. But so long as our law controlling the manufacture of cheese, is interpreted as meaning that skimming of milk for cheese making is permitted, we are admitting to the world that the bars are down, and it is only human to expect this kind of advertising will hurt the industry."

HORTONVILLE EQUITY WILL BE REORGANIZED

At a meeting of local farmers in the village hall at Hortonville, Thursday evening, who are interested in the reorganization of the local unit of the American Society of Equity, it was decided to hold a second meeting in the same hall on the evening of Saturday, Oct. 8, and to invite the members of the Seymour local to be present as guests. Hortonville women will serve lunch at the next meeting. It is the purpose of the Hortonville farmers to reorganize their equity local along the same lines that have made the Seymour local a decided success in pleasure and business. Entire families turn out to the meetings of the Seymour locals to be entertained with recreation, debate, plays, stunts, games and often dancing.

Wieckert Makes His Silo Do Double Duty On Farm

Walter H. Wieckert, route 4, Appleton, is a pioneer among the dairymen of the state in making his silo do double duty and supply a lot of cattle with silage in summer as well as in winter. In the fall Mr. Wieckert fills his silo with silage and a number of bushels of clover hay. He also plants a crop of corn in the silage. The silage is cut and packed in the silage silo and the corn is planted in the corn silage silage. Mr. Wieckert's silage silage is cut and packed in the silage silage and the corn is planted in the corn silage silage.

Next season, Mr. Wieckert will again plant a crop of clover hay in the silage silage and a number of bushels of corn in the corn silage silage. He will again fill it with silage and corn. This year, Mr. Wieckert's silage silage is cut and packed in the silage silage and the corn is planted in the corn silage silage.

Here And There Among The Farmers--

BY W. F. WINSEY
Special Farm Writer
Robert Amundson, county agent, and A. G. Meating, county superintendent of schools, are planning to hold a series of school festivals in Outagamie county during the latter part of October and possibly the first part of November. The dates and the places of the festivals will be announced when the schedule has been worked out by the two officials. The program at each festival will include an exhibit of school work, and exhibit of farm products of the vicinity, made by the pupils, and literary and musical numbers.

Under the leadership of Mr. Amundson a number of potato growers of the county are preparing to make exhibits at the sixteenth annual Wisconsin Potato show, to be held at Rhinelander, Nov. 11. Some of the growers that have already signified their intention are Hans Anderson, Milo Anderson and Gilbert Thorson, Greenville, Earl Randle, Milford Bottrel, R. R. G. S. Wald, Art Kaufman, M. Griswold, Edward Reossler, Arnold Reossler, John Doran, George Cuff, M. Lovejoy and M. Gratzmacher, Dale.

A drive for new members of the Wisconsin Cheese Producers' Federation among the cheese factories of the towns of Osborn and Freedom will be launched in Vandenberg's hall, village of Freedom, at 8 o'clock, Thursday morning by a strong force of cooperative-marketing speakers. Among the speakers are Arthur H. Fisher, attorney of Shawano, A. G. Murphy, agricultural agent of Shawano, and Gus Brickbauer, president of the federation. The committee on arrangements for the meeting and drive are: Barney Scouten, Bert McCann, William Hurst and Robert Amundson. A big turnout of dairymen is expected. The committee met at Freedom Monday night to complete the arrangements.

On the farm of Prof. William L. Crow, route 4, Appleton, the first corn binder equipped with an elevator to discharge the bundles on a wagon in Outagamie county, is being used by Simon Summers, manager of the farm. The new contrivance relieves men of the heaviest work connected with silo filling, namely lifting green bundles of corn with a fork and pitching them onto a wagon. Other heavy work in silo filling is pitching the bundles from the wagon to the silage cutter. Either of these jobs requires muscle and endurance.

W. H. Miller, route 4, cut 10 acres of corn last Friday and started to fill his silo, Thursday afternoon. His corn has no ripened ears but the green ears and the stalks will make excellent silage.

At a meeting of the South Greenville Grange, Saturday evening, the subject of moving the Grange hall and remodeling it was considered. The new pavement is so close to the hall that a change in the location of the hall is a necessity.

The first meeting of the P. T. A. of the Wide Awake school, town of Greenville, will be held the second Tuesday evening in October, in the district No. 7, school building. The purpose of this meeting is the election of officers and formation and adoption of a program for the year.

William Menning, town of Greenville, was out Friday with V. Garvin, Waukesha, a dealer in cattle, picking up a carload of dairy cows, to be shipped on Monday from the Greenville station to Connecticut.

The Sunny Slope school building, district No. 7, is in use as a community center by the people of the district and the pupils belong to a literary club. The building is well equipped with cabinet, geographical and historical maps and industrial charts, and in the room is a globe, an organ and a library of 250 books. A new set of reference works and a number of library books will soon be added to the equipment. Sixteen pupils are enrolled and Miss Edith Cooney, Appleton, is their teacher.

The achievement day of the Home Economic groups of Outagamie county is set for Thursday, Nov. 2, and the place of meeting will be the playground of the Appleton Women's club. Miss Edna Huffman of the extension division of the college of agriculture, who is the instructor and demonstrator of the various groups, will have charge of the program which will open at 10 o'clock in the forenoon. Each of the groups will have a place on the program and a speaker from the college.

The big decline in farm values, says the Department of Agriculture, may be attributed to a sharp drop in prices of certain farm products, in farmers' incomes and in real estate generally.

Age of agriculture will also appear. A dinner will be served at noon.

Seventeen local women of the town of Greenville, under the leadership of Miss Carrie and Georgina Schaefer, attended the last home economic meeting of the year, Wednesday afternoon, at the home of Mrs. Harry Schroeder. At the meeting the Misses Schaefer demonstrated the pressure cooker and preparation of a beef roast with this cooking device, as well as a number of other recipes. These dishes also were demonstrated before a group of leaders at the home of Mrs. Louis Sewall, Greenville, Sept. 16, by Miss Huffman. At the meeting in the Schroeder home, blank cards were distributed to the women, on which were to be listed, the benefits derived by each woman, from demonstrations throughout the year. These cards filled and signed will be used as reports at the achievement day meeting.

HIGH PRICE FOR A SUIT

Only a millionaire would buy a suit made of the wool of this ram. For this is the great "I-Am," a Rambouillet ram of eight months which sold for \$2,000 at the recent national ram sale at Salt Lake City. That's the highest price ever paid for a ram lamb.

GREATER DEMAND FOR HOGS IN WEEK

Cheese and Butter Higher Than Last Year—Buyers Are Conservative

Madison—(P)—There was a slight advance in the price of hogs this week, due to a decrease in supply, but that advance was wiped out later in the week by increased shipments, according to the department of markets, here. Cheese is about 1/2 cent higher than at this time last year while butter is about 1/2 cents above last year's price.

The butter market was generally quiet during the past week, says the department of markets, supplies of butter being light. Medium and undergrades were more plentiful. Buyers operated conservatively, and at the end of the week the undertone was nervous and unsettled. Buyers were holding off in anticipation of lower prices in the near future. Centralized car market supplies were light. Buyers did not show a great deal of interest, and the trade was slow.

A moderate volume of business in cheese was reported. Receipts at Wisconsin warehouses were lower than last year as a result of recent drought, and extreme heat wave. Pastures have been showing some improvement.

It is reported that shippers bought practically as many hogs as a week earlier, but increased supplies of light hogs and pigs broke the market on weight averages 160 pounds down sharply when shippers were inclined to buy heavier hogs. Packing was in good demand throughout the week. Hog prices were about 40 cents lower than this time last year.

The big decline in farm values, says the Department of Agriculture, may be attributed to a sharp drop in prices of certain farm products, in farmers' incomes and in real estate generally.

Age of agriculture will also appear. A dinner will be served at noon.

500 BUTTERMAKERS WILL ATTEND MEET AT LA CROSSE OCT. 11

Twenty-seventh Annual Convention Will Be in Progress for Three Days

La Crosse—(P)—Five hundred buttermakers from every section of Wisconsin will meet in La Crosse on Oct. 11, 12 and 13 in their twenty-seventh annual convention.

The convention, according to present plans, will be called to order at 7:30 Tuesday evening, Oct. 11, at which time the address of welcome by Mayor J. J. Verchota, of La Crosse, and the response by Olaf Lauson, Gays Mills, will be heard. The annual address of the president, Albert Erickson, Clear Lake, will be heard, while the Hon. C. J. Kromer, dairy and food commissioner, Madison, will give the main address of the evening. Reports of various standing committees will also be heard.

At 8 o'clock Wednesday morning the butter entries will be judged, the winners to be announced at the banquet in the evening. E. K. Slater, Milwaukee editor, will address the convention at this session. The afternoon session will be devoted to various business matters, the election of officers being the most important. The speaker for the banquet to be held in the evening has not been announced.

R. H. Howard, St. Paul, will address the concluding session Thursday morning. Following Mr. Howard's talk, all unfinished business will be brought up and the convention adjourned sine die.

The present officers are: A. Erickson, Windsor, President; Albert Long, Medford, vice-president; F. M. Werner, Mt. Horeb, treasurer; H. C. Lauson, Madison, secretary. The butter will be judged and graded by S. B. Cook, fieldman of District 4, Cumberland, Wisconsin. H. T. Sondergaard, dairy specialist of the University of Wisconsin, and H. C. Larson, secretary of the organization.

der is secretary, and George Wehling manager, is now shipping from one to three carloads each week.

RUGS FROM THE ORIENT

In An Interesting Sale Which Continues Throughout This Week

THERE is something of extraordinary interest to lovers of beautiful rugs going on right now at Pettibone's—the semi-annual sale of Orientals which Mr. Gabriel of Milwaukee has brought to the store for the benefit of our customers in the Fox River Valley. The exhibit contains everything in rich Persian and Turkish rugs in all sizes, even to the very large rugs 20 feet or more long. Qualities are, of course, beyond criticism at the prices quoted and colors and weaves have the artistry and beauty that characterize the finest work of the East.

Mr. Gabriel Specializes In Repairing and Cleaning Oriental Rugs

Mr. Gabriel is not only expert in selecting fine examples of the best in Orientals, but equally skilled in repairing and cleaning rugs that need this attention. Call him at any time during this week, the earlier the better, and let him put new life into your rugs by making them as immaculately clean as they were when you bought them. He can repair worn parts so skilfully that the rug looks exactly as though it had never needed mending.

There Are Many Lovely Runners and Scatter Rugs

For the many places in every home where a small rug or a runner of soft rich color would add immeasurably to the beauty and charm of a room, there are splendid chances to buy one of these smaller rugs at exceptionally low prices. Orientals are not by any means beyond the reach of the ordinary purse. Come in soon and see what fine, colorful rugs can be had at astonishingly modest prices.
